This result includes the adjustments required in respect of **International Accounting Standards 19 (IAS 19)** 'retirement benefits' totalling £2.627m. Overall SB Cares performed as expected for the year of trading delivering services through its contract with Scottish Borders Supports LLP.

SB Cares LLP's financial statements have been prepared on a going concern basis.

Risk Management

SB Cares LLP recognises the importance of the management of corporate risk and applies appropriate corporate governance to ensure it is successfully monitored and managed.

The overall pressure on public finances continues to be the dominant risk to the LLP. Budget pressures and service reduction within Scottish Borders Council has an effect as the LLP provides key services to this main client grouping. SB Cares continues to monitor the change in business operation and address the mitigation of risk proactively.

Cash flow management procedures are in place to ensure that resources are managed effectively.

SB Cares has adopted Scottish Borders Council's (SBC's) corporate risk policy to embed risk management into its business practices. During 2015 SB Cares Senior Management attended SBC's refreshed corporate risk management training course in recognition that risk management is part of their job. SB Cares has developed its risk register to reflect risks and mitigations associated with the delivery of its 2017-2022 Business Plan. The risk register will be regularly reviewed by its Senior Management Team and Board of Management as part of its performance monitoring processes. Scottish Borders Council's Internal Audit function, through a Service Level Agreement, carries out regular audits of business functions and areas of risk whose findings are reported to the Board of Management.

The partnership is subject to review and scrutiny by the Council's LLP Strategic Governance Group.

Notes *(forming part of the financial statements)*

1 - Accounting policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the Limited Liability Partnership's financial statements.

Basis of preparation

The financial statements have been prepared in accordance with applicable accounting standards under the historical cost accounting rules.

The financial statements have been prepared in accordance with FRS101. In preparing these financial statements, the Company applied the recognition, measurement and disclosure requirements of International Financial Reporting Standards as adopted by the EU but makes amendments where necessary in order to comply with the Companies Act 2006 and has set out below where advantage of the FRS101 disclosure exemptions have been taken.

In these financial statements, the Company has applied the exemptions available under FRS101 in respect of the following disclosures:

- a cash flow statements and related notes;
- comparative period reconciliations of share capital;
- the effects of new but not yet effective IFRSs; and
- disclosures in respect of the compensation of Key Management Personnel.

As the LLP is a wholly owned subsidiary of Scottish Borders Council, the LLP has taken advantage of the exemption contained in **International Accounting Standard 24 'related parties' ("IAS24")** and has therefore not disclosed transactions or balances with entities which form part of the group as related parties.

Going concern

The LLP's business activities, together with the factors likely to affect its future development, performance and position, are set out in the members' report on page 3. The members have a reasonable expectation that despite there being a significant negative net worth at the end of the year the LLP has adequate resources to continue in operational existence for the foreseeable future with a service provision agreement in place with Scottish Borders Supports LLP until March 2020 and a guarantee for SB Cares pension liability by Scottish Borders Council. Thus Members continue to adopt the going concern basis of accounting in preparing the annual financial statements.

Members' remuneration and allocation of profits

Members are not remunerated by the LLP. A member's share in the profit or loss for the accounting period is accounted for as an allocation of profits. Unallocated profits and losses are included within 'other reserves'.

Members' capital

The capital requirements of the LLP are determined from time to time by the members. No interest is paid on capital.

Notes (continued)

1 Accounting policies (continued)

Value added tax

The LLP is registered for VAT purposes. Irrecoverable VAT is charged to the relevant expenditure category or included in the capitalised purchase cost of fixed assets. Where output tax is charged or input VAT is recoverable, the amounts are stated net of VAT.

Taxation

Taxation on all partnership profits is solely the liability of individual members. Consequently neither taxation nor related deferred taxation arising in the LLP are accounted for in these financial statements.

Income recognition

Income is recognised in the accounting period to which it relates. Income from grants, contracts and other services rendered is included to the extent of the completion of the contract or service concerned. Income received in advance is included in the balance sheet within creditors: amounts falling due within one year.

Trade and other debtors

Trade and other debtors are recognised initially at fair value. Subsequent to initial recognition they are measured at amortised cost using the effective interest method, less any impairment losses.

Trade and other creditors

Trade and other creditors are recognised initially at fair value. Subsequent to initial recognition they are measured at amortised cost using the effective interest method.

Interest-bearing borrowings

Interest-bearing borrowings are recognised initially at fair value less attributable transaction costs. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost using the effective interest model, less any impairment losses.

Financial assets (including trade and other debtors)

A financial asset not carried at fair value through profit and loss is assessed at each reporting date to determine whether there is objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be measured reliably.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount and the present value of estimated future cash flows discounted at the asset's original effective interest rate. Interest on the impaired asset continues to be recognised through the unwinding of the discount. When a subsequent event causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through profit and loss.

Notes (continued)

1 Accounting policies (continued)

Retirement benefits

All existing and new members of staff have the option of joining the SB Cares Pension Fund ("the Fund"). The Fund is a defined benefit pension scheme, providing benefits based on final pensionable pay, which is contracted out of the State Earnings-Related Pension Fund. Assets and liabilities of the Fund are held separately from those of the LLP. Fund assets are measured using market values. For quoted securities the current bid price is taken as market value. Fund liabilities are measured using a projected unit method and discounted at the current rate of return on a high quality corporate bond of equivalent term and currency to the liability.

The pension scheme surplus (to the extent that it is recoverable) or deficit is recognised in full. The movement in the scheme surplus/deficit is split between operating charges, finance items and, in the statement of total recognised gains and losses, actuarial gains and losses.

Restatement-Retirement Benefits

It has been necessary to revise the presentation of accounting entries in respect of retirement benefits made in the year ended 31st March 2016.

In that year only the value of employer's contributions to the pension scheme was recognised in the Profit and Loss account. This has now been revised to recognise the full service cost in the Profit and Loss account. The effect in the year ended 31st March 2016 is to increase staff costs by £1.2 million.

The revised presentation has also been followed in the current year.

7 Employee benefits

The information disclosed below is in respect of the LLP's share of assets and liabilities within the Scottish Borders Council Pension Fund, in which it is a participating employer. The latest full actuarial valuation was carried out as at 31 March 2014.

The Scottish Borders Council Pension Fund is a defined benefit statutory scheme administered in accordance with the Local Government Pension Scheme (Scotland) Regulations 2014, is contracted out of the State Second Pension and currently provides benefits based on career average revalued salary and length of service on retirement.

In accordance with the agreement between Scottish Borders Council and SB Cares LLP, no liability was transferred from the Council to SB Cares LLP at the date of incorporation.

Governance

The administering authority for the Fund is Scottish Borders Council. The Pension Fund Committee oversees the management of the Fund whilst the day to day fund administration is undertaken by a team within the administering authority. Where appropriate some functions are delegated to the Fund's professional advisers.

As administering authority to the Fund, Scottish Borders Council, after consultation with the Fund Actuary and other relevant parties, is responsible for the preparation and maintenance of the Funding Strategy Statement and the Statement of Investment Principles. These should be amended when appropriate based on the Fund's performance and funding.

Risk exposure

In general, participating in a defined benefit pension scheme means that the Employer is exposed to a number of risks:

-Investment risk. The Fund holds investment in asset classes, such as equities, which have volatile market values and while these assets are expected to provide real returns over the long-term, the short-term volatility can cause additional funding to be required if a deficit emerges;

-Interest rate risk. The Fund's liabilities are assessed using market yields on high quality corporate bonds to discount future liability cashflows. As the Fund holds assets such as equities the value of the assets and liabilities may not move in the same way;

-Inflation risk. All of the benefits under the Fund are linked to inflation and so deficits may emerge to the extent that the assets are not linked to inflation; and

Notes (continued)

7 Employee benefits (continued)

-Longevity risk. In the event that the members live longer than assumed a deficit will emerge in the Fund. There are also other demographic risks.

In addition, as many unrelated employers participate in the Scottish Borders Council Pension Fund, there is an orphan liability risk where employers leave the Fund but with insufficient assets to cover their pension obligations so that the difference may fall on the remaining employers.

All of the risks above may also benefit the Employer e.g. higher than expected investment returns or employers leaving the Fund with excess assets which eventually get inherited by the remaining employers.

Amendments, curtailments and settlements

Past service costs/gains

Past service costs/gains arise as a result of introduction or withdrawal of, or changes to, member benefits. For example, an award of additional discretionary benefits to a member such as added years by a member would be considered a past service cost.

We are not aware of any additional benefits which were granted over the year ending 31 March 2017.

Curtailments

The cost of curtailments arising as a result of the payment of unreduced pensions on early retirement have been calculated at the point of exit, with interest applied to the accounting date accounted for separately.

Over the year, one former employee became entitled to unreduced early retirement benefits. The capitalised cost of the additional benefits on FRS101 compliant assumptions is calculated at £58,000. This figure has been included within service cost in the statement of profit and loss.

Settlements

We are not aware of any liabilities being settled at a cost materially different to the accounting reserve during the year.

The assets and defined benefit obligations prior to the 1st April 2015 will be accounted and disclosed for within Scottish Borders Council for service prior to the transfer date.

Future salary increases	3.7	4.3
Pension increase rate	2.7	2.5

7 Employee benefits (continued)

The assumptions relating to longevity underlying the pension liabilities at the balance sheet date are based on standard actuarial mortality tables and include an allowance for future improvements in longevity. The assumptions are equivalent to expecting a 65 year old to live for a number of years as follows:

- Salary increases are expected to be 1% p.a. until 31 March 2016 and 1.8% p.a. thereafter
- Current pensioner aged 65: 22.8 years (male), 23.7 years (female)
- Future retiree upon reaching 65: 25 years (male), 26 years (female)

The LLP expects to contribute approximately £1,622k to its defined benefit plan in the next financial period.

Notes (continued)

8 Financial instruments

The financial instruments held are trade receivables, cash and cash equivalents, trade creditors and other creditors. All are held at amortised cost which, given their short term nature is estimated to equate to fair value.

The partnership's exposure to credit risk is considered to be minimal given its principal trade debtor is Scottish Borders Council. Similarly given the nature of its business it is considered to have limited liquidity risk.

9 Contingent Liabilities

There has been a European Court of Justice ruling relating to the payment of mobile workers. The financial implications of this judgement for Scottish Borders Cares LLP are unclear at present and therefore, in agreement with our external auditors, a contingent liability has been included in this years' annual accounts.

10 Post balance sheet events

There were no post balance sheet events requiring adjustment or disclosure within the financial statements.

11 Ultimate parent organisation

The LLP's ultimate parent undertaking is Scottish Borders Council, one of its designated members, as this is the largest group into which the results of the LLP are consolidated. The consolidated group financial statements of Scottish Borders Council may be obtained from its registered office at the Scottish Borders Council offices, Newtown St Boswells, TD6 0SA.
