

Services that are Integrated

Which health and social care services have we integrated?

Our Partnership is responsible for planning and commissioning integrated services and overseeing their delivery. These services are all adult social care, primary and community health care services and elements of hospital care which will offer the best opportunities for service redesign. The Partnership has a key relationship with acute services in relation to unplanned hospital admissions and will continue to work in Partnership with Community Planning Partners. This includes charities, voluntary and community groups so that, as well as delivering flexible, locally based services, we can also work in Partnership with our communities.
