## Scottish Borders Health & Social Care Integration Joint Board

Meeting Date: 11<sup>th</sup> June 2018

Report By Robert McCulloch-Graham, Chief Officer Health and Social Care							
Contact Susan Henderson, Planning Manager							
Telephone: 01835 825080							
INSPECTION ACTION PLAN UPDATE							
Purpose of Rep	ort: To report on progress on the inspection action plan						
Recommendation	ons: The Health & Social Care Integration Joint Board is asked to:						
	a) Note this report.						
Personnel:	There are no staffing implications						
Carers:	Recommendation five in the inspection report focuses specifically on carers. It recommends that the Partnership identify carers and ensure that their needs are assessed and met. The actions to meet this recommendation are complete but will be ongoing. They include:  • Updating the Carers Strategy to include carer identification • Putting in place a pathway of support for carers; this includes developing a new carer support plan and publishing a carer eligibility criteria plan • A health needs assessment being produced, based on survey of carers.  Carers and carer representatives participate in decision making about actions through the Carers Advisory Group and Carers Act Board.						
Equalities:	A specific ED impact assessment has not been done for the action plan as actions within the action plan are subject to their own ED impact assessment requirements.						
Financial:	The action plan is consistent with current strategy. It has not identified any additional staffing or resource requirements.						
Legal:	Legal requirements are met where relevant.						

Risk Implications:	A key risk is that feedback from the Care Inspectorate/Healthcare
	Improvement Scotland could require changes or additions to the
	plan. This could impact on the Partnerships ability to continue to
	meet the timescales set within the plan.
	However there is a robust monitoring system in place for the
	action plan. There are also meetings between the Chief Officer
	and the inspection team lead to discuss the plan

The Care Inspectorate and Healthcare Improvement Scotland undertook an inspection of the Partnership's older people's services between October 2016 and February 2017. The inspection report<sup>1</sup> was published on 28<sup>th</sup> September 2017. Across the nine key indicators of performance, inspectors found one i.e. 'impact on the community' to be 'good', five to be 'adequate' and three to be 'weak,' including 'delivery of key processes'; 'strategic planning and plans to improve services'; and, 'leadership and direction.'

There are thirteen recommendations for improvement in the report. An action plan has been prepared to meet the thirteen recommendations. This is monitored through the Joint Older People's Services (JOPS) inspection group and reports to the Joint Leadership Group and the Integrated Performance Group. The Inspection Action Plan is attached to this report.

The table below summarises performance on the inspection action plan. There are 59 actions to meet the thirteen recommendations. All the actions to meet recommendations one, two, five, ten and eleven are now complete. Work is ongoing to ensure that the recommendations are sustained.

Some actions have had their timescale extended due to either staff absence, amendment to the action that is required or complexity of the action requiring additional time. All other actions are progressing within timescale (10.5.18).

The action plan has been submitted to the Care Inspectorate and Healthcare Improvement Scotland. The recent feedback from the Care Inspectorate/Healthcare Improvement Scotland is for more clarity on the indicators of success and on the measures that will be used to ensure that outcomes are met. The JOPS group is now ensuring this is incorporated into the action plan.
