

# SCOTTISH BORDERS COUNCIL CORPORATE PRIORITIES SUMMARY OF PERFORMANCE 2017/18 HOW ARE WE DOING?

In 2013, we published our Corporate Plan, with eight priorities to work towards over a five year period. This summary provides an overview of performance during 2017/18, under each of the 8 Corporate Priorities. We continue to make significant progress across a number of key areas such as the economy and education, but recognise that there are ongoing challenges to face in the coming years. Reviewing performance information regularly is a vital part of ensuring we stay focused on what is important; *ensuring the best quality of life for everyone in the Scottish Borders, prosperity for our businesses and good health and resilience for all our communities.*

A mixture of performance information is provided under each priority:

The top half of each page contains high level performance indicators that show, for example, the general health of the economy. For comparison we have included last years figure and any Scottish data (where applicable). While the Council may have influence over these indicators, they are largely contextual in nature, and the information is displayed within a grey box.

The bottom half of each page contains performance indicators that we have more influence over, for example, how quickly we process planning applications. Information for each indicator is displayed within a white box above a coloured section. This coloured section (where applicable) will be either Green, Amber or Red and shows where performance has improved or reduced against the **previous year**.

green - improved performance amber - a minor change in performance red - area for improvement grey - for information

#### **New Enterprise Agency** for South of Scotland

A key outcome from the Council's Economic Development activity in 2017/18 was the successful lobbying of Scottish Government to create a new South of Scotland Enterprise Agency. This was the realisation of a long-term approach, driven by the Council through the South of Scotland

#### Waste Transfer Station

In August 2015 the Council approved a proposal to close Easter Langlee landfill site when its existing capacity runs out. Planning permission has been obtained to build a new waste transfer station adjacent to the current landfill site which will allow the waste to be bulked up prior to transport to an alternative treatment facility. This change will allow the Council to continue managing its waste in line with legislation.

Construction for the new transfer station is underway, and will continue over the next 9 - 12 months. Waste transfer activities at the site will then

transfer over to the new building in a phased approach. Once the landfill site reaches its maximum capacity, which is currently forecast to be mid 2019, the to capture emissions from the site final section of the site will be capped and generate electricity, and the off. Additional gas wells will be drilled site will be seeded with grass.

### Scottish Borders Council Modern Apprentice Programme

Alistair Colville graduated from the Modern Apprentice programme in 2017. His apprenticeship included compiling reports on Council performance and achieving the SVQ Level 3 Business and Administration gualification.

He said, "The role within the Performance team stood out to me as I could see that it would involve working with departments across the Council giving me the opportunity to have an insight into nearly all of the service areas that SBC cover." Manager, Sarah Watters, commented, "Employing a Modern Apprentice was a great step for my team. Having a fresh perspective was very beneficial and seeing Alistair graduate from the programme and secure a full time position within SBC highlighted that this approach can be very worthwhile." Tracey Beattie, Service Delivery Manager, welcomed Alistair to his new role in the SBC Customer Advice and Support Service, "Alistair's knowledge of the Council services and staff have benefited my team and he is an asset to the service as a whole." Alistair concluded, "I feel like the MA programme allows young people an opportunity to get their foot in the door with SBC which can lead to opportunities within SBC. This has been the case with me as it allowed me to move from the Performance team into Customer Advice and Support once I had completed my MA with a qualification that I had obtained along with many other forms of knowledge revolving around Scottish Borders Council."
