Dear Sirs/madam

I hereby make an

application for this project to proceed on COMMON GOOD LANDS adjacent to St Leonards Hut

Having been gifted a donation of materials and labour for the construction and no monetary finance required the request is basically an area of 3 flagstones wide and 8 flagstones long.

The benefit of having this is to give all the community a platform to stand on, and enjoy all the speeches and musical talents reverberating from the Hut and enhance the local environment. Having originally started this application two months ago, speed us of the essence and consent approved to allow this memorial to be in place for 2014 celebrations

I have the word president being used which is of course completely inappropriate as we have existing memorials for JIMMY GUTHRIE BILL M'KAREN STEVE HISLOP BRENDA MURRAY and 'I am sure' the Equal Opportunities Commission would view this as another beautiful fixture than adorn our environment in which we live, and help us relive our past memories of all concerned.

I hope that with this application we can proceed with dignity and respect for one of Hawaii's most famous "Seni's" who promoted the community far and wide with a humble manner seldom witnessed over a lifetime

Yours Faithfully
