2. CHAMBERS INSTITUTION, PEEBLES: COMMUNITY CONSULTATION

2.1 There had been circulated copies of a briefing paper prepared by Scottish Historic Buildings Trust updating the Trust on progress with the community consultation on the future of the Chambers Institution; approval was sought on the next steps in this process. At the meeting on 2 March, the Chambers Institution Trust agreed that SHBT should deliver a re-ordering exercise to provide a realistic roadmap to deliver a Chambers Institution fit for the 21st century. The agreed process to be adopted was:-

- (a) a Design Team to prepare a number of sketch schemes showing re-ordering of the building;
- (b) further community consultation to consider the options;
- (c) the Design Team to prepare a final preferred scheme; and
- (d) a viability appraisal to set out the potential funding for a Capital development project for the Chambers Institution.

2.2 A draft report on the community consultation exercise prepared by Scottish Historic Buildings Trust had also been circulated.

2.3 Una Richards, Director, SBHT confirmed that the next step would be to confirm the procurement process for appointing the Design Team following liaison with Martin Joyce, Service Director, Capital Projects, Scottish Borders Council. She explained that the proposed outline timescale for completion of the community consultation was:-

- (a) appointment of Design Team in early summer (this would be confirmed after SBC input on the procurement process was received);

- (b) presentation of the architectural scheme designs to the community in late summer/early autumn 2016; and
 - (c) presentation of the draft community consultation report, including preferred sketch scheme and viability appraisal to the Chambers Institution Trust in early winter 2016.
3. Discussions took place in relation to the appointment of the Design Team and it was noted that the Chief Financial Officer would liaise with Martin Joyce, Service Director Assets and Infrastructure regarding the way forward.
