3. **QUALITY OF LIFE AND NEIGHBOURHOOD SMALL SCHEMES**

**(v) Details of projects funded by Quality of Life Schemes and Neighbourhood Small Schemes be presented to the Teviot & Liddesdale Area Partnership as part of any future updates on Grants and Funding.**

**4. INTRODUCTION TO THE NEW AREA PARTNERSHIP**

Councillor Marshall set the scene for how the new Area Partnership would develop. He explained that as well as Councillors and Community Councillors, Area Partnerships would bring together representatives from key organisations, groups, businesses, and individuals from across the public and private sector and third sectors and from local communities to collectively work together. Meetings would be more interactive which would give everyone the opportunity to have discussions in groups at their tables. This first meeting would provide some context to both community planning, as well as an overview of grants and funding. Future Area Partnership meetings would be themed to help discuss and debate issues in a more manageable way.

**5. SCOTTISH BORDERS COMMUNITY PLAN AND TEVIOT AND LIDDESDALE LOCALITY PLAN**

Jenni Craig, Service Director for Customer and Communities, explained that the introduction of the Community Empowerment (Scotland) Act 2015 had seen the Scottish Borders Community Planning Partnership publish a Community Plan to address Borders-wide challenges and opportunities. Copies of the Community Plan were included in the information packs provided at the meeting. At a local level, Area Partnerships would take forward the development of Locality Plans; so the meeting was an opportunity to participate in an informal discussion about the challenges and issues affecting the Teviot and Liddesdale area. There were four main themes of the Community Plan, namely: our Economy, Skills & Learning; our Health and Wellbeing; our Quality of Life; and our Place.

**6. OPEN FORUM**

Colin Banks, Lead Officer for Localities, invited those present to discuss at their tables the emerging issues in the Teviot and Liddesdale area across the themes of the Community Plan and to write these down on the post-it notes provided. 30 minutes was given for this activity. He also asked those present to complete meeting evaluation forms which had been provided. From the feedback, it was clear that the debate had included issues, challenges and opportunities across all four themes, with 'Economy Skills and Learning' emerging as the priority theme for discussion at the next meeting of the Area Partnership. This feedback was summarised as shown in the appendix to this Minute.

**7. OVERVIEW AND LOCALITIES BID FUND**

Shona Smith, Communities and Partnership Manager, summarised the grants and funding streams available to local communities and introduced members of the Scottish Borders Council team of officers who could provide further information and assistance. She also gave an update on the Localities Bid Fund in the Teviot and Liddesdale Area where there were 14 projects being put forward to a public vote which would end on 28 February 2018. In response to questions, Ms Smith advised that there had been a good response from the community and 20,000 voting papers had been issued. Future adjustment in terms of funding allocation could be made if it was found that projects from communities with a low population were at a significant disadvantage in the voting process.

**8. DATE OF NEXT MEETING**

Councillor Marshall thanked everyone for attending and advised that the next meeting of the Area Partnership would be held on 17 April 2018. The layout of the venue had encouraged discussion and he suggested that the next meeting be held again in the Lesser Hall, or Main Hall, if there were significant numbers, of the Town Hall, Hawick at 6.30pm.

***The meeting concluded at 8.10 pm***

**Our Place**

- Housing – Newcastleton, the conservation status having an impact
- Borders National Park – opportunity for the area
- Old fashioned design of shops (front loading only, no back entrances) deters big companies from occupying shops
- Housing – what opportunities for young people and families, wrong housing going in and affordable? Housing types an issue, single storey needed for the elderly, which would free up housing for families
- Countryside is an asset, how do we make the most of it? Instead it is being damaged

- Windfarms – local discussion required
- Digital connectivity is an issue
- Review of school estate, will it disadvantage rural areas?
- State of High Street is sad, charity shops and for sale signs
- If people have to walk from a central car park, then covered canopy areas
