Part of the site falls within a locked enclosure

**Statement**

You must state, in full, why you are seeking a review on your application. Your statement must set out all matters you consider require to be taken into account in determining your review. **Note:** you may not have a further opportunity to add to your statement of review at a later date. It is therefore essential that you submit with your notice of review, all necessary information and evidence that you rely on and wish the Local Review Body to consider as part of your review.

If the Local Review Body issues a notice requesting further information from any other person or body, you will have a period of 14 days in which to comment on any additional matter which has been raised by that person or body.

State here the reasons for your notice of review and all matters you wish to raise. If necessary, this can be continued or provided in full in a separate document. You may also submit additional documentation with this form.

Within the small holding at Kirkburn there is now detailed planning consent to build eight holiday lodges and a hub-house along with six holiday sheds and an ancillary building to service these.

The holiday complex will promote 'eco-living' and autonomy and as such is to be as bio-diverse as possible. In particular, heating will be by biomass, the source of which is readily available from the Forestry Commission and comes from the neighbouring woodlands in the vicinity.

The Biomass Processing shed is needed to process the raw material ready for combustion in the individual holiday buildings and will enable small-scale processing on-site to service the holiday accommodation. Thus amplifying the awareness of carbon footprinting at the complex.

The biomass processing will lead to one full-time member of staff being employed, and hence the HSE requirement to provide welfare facilities for employees.

The higher parts of the structure have been clad in natural larch which will be sourced from within the Scottish Borders. This material weathers naturally to blend with the landscape. The charcoal grey roof-coverings will, after a number of years, support lichens and other natural grown. The roof has been designed to follow the slope of the hill rather than compete against it.

The applicant would be happy to explain the thinking behind this bio-diversity given the opportunity to speak.

Have you raised any matters which were not before the appointed officer at the time the determination on your application was made? Yes  No

If yes, you should explain in the box below, why you are raising new material, why it was not raised with the appointed officer before your application was determined and why you consider it should now be considered in your review.

**List of documents and evidence**

Please provide a list of all supporting documents, materials and evidence which you wish to submit with your notice of review and intend to rely on in support of your review.

**Note.** The planning authority will make a copy of the notice of review, the review documents and any notice of the procedure of the review available for inspection at an office of the planning authority until such time as the review is determined. It may also be available on the planning authority website.

**Checklist**

Please mark the appropriate boxes to confirm you have provided all supporting documents and evidence relevant to your review:
