Further information may be required by one or a combination of procedures, such as: written submissions; the holding of one or more hearing sessions and/or inspecting the land which is the subject of the review case.

Please indicate what procedure (or combination of procedures) you think is most appropriate for the handling of your review. You may tick more than one box if you wish the review to be conducted by a combination of procedures.

If you have marked box 1 or 2, please explain here which of the matters (as set out in your statement below) you believe ought to be subject of that procedure, and why you consider further submissions or a hearing are necessary:

**Statement**

You must state, in full, why you are seeking a review on your application. Your statement must set out all matters you consider require to be taken into account in determining your review. Note: you may not have a further opportunity to add to your statement of review at a later date. It is therefore essential that you submit with your notice of review, all necessary information and evidence that you rely on and wish the Local Review Body to consider as part of your review.

If the Local Review Body issues a notice requesting further information from any other person or body, you will have a period of 14 days in which to comment on any additional matter which has been raised by that person or body.

State here the reasons for your notice of review and all matters you wish to raise. If necessary, this can be continued or provided in full in a separate document. You may also submit additional documentation with this form.

The site is a smallholding where the applicant breeds and brings on cattle, poultry and other stock.

The cold store has consent under permitted development so all that is being asked is to double the footprint of this store.

The hayshed forms a mezzanine level over the store, and has been kept to a restricted height so as it is not visible from beyond the tree line to the North of the site. Levels and the heights of the trees have been noted on the drawings to exemplify the height of the tree-tops - this information was taken from a topographical survey of the site by an independant specialist surveyor.

The building is to be clad in natural home-grown larch and the roof has been designed to follow the contours of the site.

The building is required to further the agricultural activities within the existing small-holding.

Have you raised any matters which were not before the appointed officer at the time the determination on your application was made?

Yes  No

If yes, you should explain in the box below, why you are raising new material, why it was not raised with the appointed officer before your application was determined and why you consider it should now be considered in your review.

n/a
