HEALTH & SOCIAL CARE
LOCALITY PLAN
TEVIOT & LIDDESDALE
for consultation
2017-2019
1. FOREWORD

In April 2016, following an extensive period of consultation with local people, we published the Scottish Borders Health and Social Care Partnership’s Strategic Plan. The Strategic Plan sets out the Partnership’s objectives for improving health and social care services for the people in the Scottish Borders and lays the foundation for the key priorities for improvement going forward.

In parallel to this, Community Planning Partnerships [CPP] are also required to produce Locality Plans under the requirements of the Community Empowerment (Scotland) Act 2015. In the future our aspiration is to bring these plans together within one plan.

Guidance from the Scottish Government is clear that local representatives – including health and social care professionals, third and independent sectors, housing, service users and their carers - are given the opportunity to influence and inform service planning as we move towards achieving the objectives set out in the Strategic Plan.

As a result local working groups across the five localities in the Scottish Borders have been established. These working groups are made up of local representatives and they have made a significant contribution to the development of this Locality Plan which focuses on local needs and key priorities for improvement from the perspective of local people who use and deliver health and social care services.

Our aim is that we plan, commission and deliver services in a way that puts people at the heart of decision making as well as meets the needs of local communities. As such we want to continue to work in partnership with everyone who has an interest in improving health and social care services at a local level and seek your view on this Locality Plan.

Together, with you, we know we can make a real difference.

Elaine Torrance
Chief Officer for Health and Social Care Integration
Scottish Borders
The Scottish Government, through the Public Bodies (Joint Working) (Scotland) Act 2014 has two very clear aims.

Better **outcomes and experiences** for individuals and communities

Better **use of resources** across health, care and support systems at national and local levels.

In order to address these aims and after extensive consultation during 2015-2016, the Scottish Borders Health & Social Care Partnership published its Strategic Plan where the following vision and objectives are outlined.

**Scottish Borders Strategic Plan 2016 -19**

“work together for the best possible health and well-being in our communities”

**9 Scottish Borders Local Objectives**

(defined during consultation on our Strategic Plan in 2015)

1. Prevention and early intervention
2. Accessible services/ develop communities
3. Reduce avoidable hospital admission
4. Care close to home
5. Integrated care model to deliver services
6. Choice and control for individuals
7. Efficiency and effectiveness
8. Reduce health inequalities
9. Support for carers

The Borders Health & Social Care Strategic Plan can be accessed [here](#)
How the Partnership seeks to meet the Objectives laid out in the Strategic Plan at a local level requires to be demonstrated in a local plan. The Scottish Borders already has five localities - Berwickshire, Cheviot, Eildon, Teviot & Liddesdale and Tweeddale. This plan is for Teviot & Liddesdale.

Five Locality Working Groups have been established and have contributed to the development of the five local plans. All key stakeholders are represented on the locality working groups as indicated below:

Details of the Teviot Locality Working Group can be found [here](#).

Our understanding of Teviot & Liddesdale is taken from:

- our analysis of both national and local data and statistics (e.g. Area Profile),
- the knowledge and experience of our service users and carers
- the views of the Locality Working Group
- the knowledge and experience of staff working within the community

The following priorities for Teviot & Liddesdale have been identified and will contribute to the 9 local objectives for Integration:

<table>
<thead>
<tr>
<th>PRIORITIES FOR TEVIOT &amp; LIDDESDALE</th>
<th>WHAT MAKES THIS A PRIORITY FOR TEVIOT &amp; LIDDESDALE</th>
</tr>
</thead>
</table>
| Improve the availability and accessibility of services for people living in rural areas and towns across Teviot | limited access to transport networks in rural areas  
limited access to care at home providers in rural areas |
| Increase the availability of locally based rehabilitation services | limited allied health professional services in the community  
limited rehabilitation support workers in the community  
no domiciliary physiotherapy services in the community  
limited access to day hospital services |
| Increase the range of care and support options across the locality to enable people to remain in their own homes and communities | difficulty recruiting and sustaining capacity in provider organisations  
lack of paid carers across locality  
lack of domiciliary care provision  
lack of transitional care beds in Teviot  
increased reliance on residential and nursing home placements  
tendency to pilot different models and approaches within one locality with no roll out to other localities |
| Increase the range of housing options available across the locality | significant projected increase in people of pensionable age  
limited options for housing in rural/outlying areas |
| Develop robust preventative services and early intervention for long term conditions | higher than average incidence of long term conditions in Teviot  
increased non-emergency attendances at BGH due to lack of local alternatives  
limited access to preventative services |

Work is currently underway to support the delivery of the 9 Local Objectives and an action plan has been developed which identifies work required to ensure the ongoing delivery of the priorities for Teviot. This is summarised in Appendix 1.

There are some actions which are common across the whole of the Scottish Borders and will be progressed at a Scottish Borders Partnership level, for example the provision of IT access within integrated sites. These actions can be viewed in the Borders wide summary plan in Appendix 2.

These actions will be continually evaluated and the plan updated annually.
