Subject: request of pro-forma for making objection to proposed extension of hours at McColl's St Boswells.

***** This email was received from the GCSX *****
Dear Clerk of the licensing board,

I would be obliged if you could please forward me a pro-forma for lodging an objection against the proposed extension of hours for McColl's in St Boswells.

I am the owner of [REDACTED] We actually share the building deeds and responsibilities.

Whereas I am delighted with the shop, and its staff members, we have had issues in the past with noise, overall with deliveries early in the morning. I have complained in a number of occasions to the shop manager regarding early morning deliveries, sometimes as early as 0700 am on a Saturday. The noise levels are high due to the trolleys used to move the goods from the lorry to the shop. Our bedroom's windows are situated directly above the shop, and although we invested in double glazing, the noise wakes us up and we can not sleep.

We feel that the proposed increased hours would represent an unacceptable increase on the levels of noise. Our main objection is on the early hours in the morning, we would not object to the shop being open till 23.00 at night. Just customers parking, opening and closing car doors and the unavoidable conversations that ensue as they cross in the street would represent a huge disturbance to our sleep.

I do suffer with sleeping problems due to a variety of issues and if necessary I will seek a note of confirmation from my GP.

Luis Molero Lopez
