

KPL101202 - Play tower with roof & slide, alu posts & full steel slide

Product Description

This condensed play unit offers the basic experiences of climbing or crawling up and down and sliding. The deep entry platform has enough room to take a break, too. Crawling and sliding are fundamental to the young child's development of motor skills. Apart from being stomach tickling fun, sliding trains the vestibular system. Climbing trains the young child's cross-body coordination and thus proprioception, both important to the young child's mastery of the physical skills that form a basis for both social skills and thinking skills.

Product Information

Category:	SIMPLY Play
Product line:	MOMENTS
Age group:	1+
Installation:	1 person(s) 6 hour(s)
Weight / Heaviest part:	0 / 0 kg.
Concrete required:	0 m ³
Foundation amount:	8
Available for surface mount:	Yes
Standard installation depth:	0 cm.
