Observations by Development Control Officer

This is a full application for the erection of a two storey split level detached house on this site at the southern end of Craigend Road in Stow. The land is currently an open plot and is surrounded by houses and their attached gardens.

The plans propose a living room, a bedroom and a kitchen on the ground floor and two bedrooms on the lower ground floor. A timber balcony is proposed the full length of the house on the southern elevation at the upper floor level and another deck is proposed on the eastern side accessed from the kitchen area. Two parking spaces are proposed from Craigend Road. The plans propose to use renewable energy and sustainable components within the design.

Two letters of objection have been received from residents in Hill Terrace located to the south of the site. The points they raise mainly relate to access and ownership issues into Hill Terrace.

The site has previously been granted full planning consent for a house in 1996 and therefore the principle cannot reasonably be challenged. I still await comments from Scottish Water and I am aware of the current embargo on discharges into the public sewerage system. However, given this proposal was one of two houses previously approved, the first house been built and the initial consent therefore remains live. Consequently I expect Scottish Water to honour the previous commitment for this plot and do not envisage this to be a problem.

The planning system must allow innovative and sustainable design and it is felt the plans can be supported in this location. The only other issue was with regards to protecting neighbouring privacy at the lower lying ground to the south and east and consequently the proposed decks and the glazed southern frontage was scrutinised by the Department. However with suitable screening on the deck the proposals should be fine. The house is positioned in a manner in which the windows will not overlook other properties. The objections are in respect of parking on another area of land and are not directly relevant to these plans. The Director of Technical Services is satisfied with an amended plan showing the parking area within the plot.

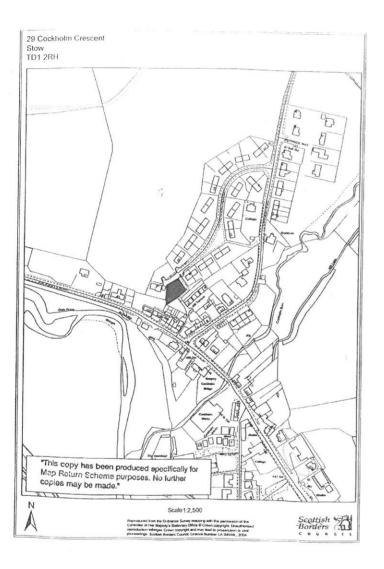

Recommendation

I recommend that the plans are approved subject to the following condition:

1. Prior to the occupation of the dwellinghouse the means of boundary screening around the decking to be agreed with the Planning Authority

Reason: To safeguard the amenity of the adjoining residential properties
