Legal & Licensing

To whom it may concern,

Re Alphonso's Late Licence Application.

I am objecting to the issue of this late licence for several reasons as I objected to this approx 10 years ago for the same reasons .I am a house owner living directly opposite this establishment in a residential area.

a) Excessive noise late at night ie People buy their food and sit in their cars under our bedroom window with the engine running especially in winter..This would wake us up at an even later hour than they do now.Reving motors ,loud music from their radios and slamming doors.

b)Civic week extension would expose us to later disturbance to an unreasonable hour.We put up with the existing situation as a member of a small community quite happily.The objections outlined in a) above apply.

c) Sevens weekend.Unsociable behaviour is a large part of this event and seems to be a right of passage for young people to get very drunk and throw their food wrappers over our property,urinating in groups up against our gates and house and exhibiting raucous behaviour including fighting under our bedroom.This extens^oon would make a difficult situation worse because the loud disturbance would extend into the night even later than now.NB Many residents chose^o to leave their properties for the night to escape this disturbance because it is so bad.

Kind Regards,
