REASON FOR DECISION

Subject to compliance with the schedule of conditions, the development will accord with the relevant provisions of the Local Development Plan 2016 and there are no material considerations that would justify a departure from these provisions.

SCHEDULE OF CONDITIONS

- A sample of the stone and render to be used for the exterior elevations of the development hereby permitted shall be submitted to and approved in writing by the Planning Authority prior to the commencement of development. The development shall then be completed in accordance with the approved samples.

Reason: The materials to be used require further consideration to ensure a satisfactory form of development, which contributes appropriately to its setting.
- All planting, seeding or turfing comprised in the approved details of landscaping shall be carried out in the first planting and seeding seasons following the occupancy of the dwellinghouse or the completion of the development, whichever is the sooner, and shall be maintained thereafter and replaced as may be necessary for a period of two years from the date of completion of the planting, seeding or turfing.

Reason: To ensure the implementation of a satisfactory scheme of landscaping which will help to integrate the proposed development into the local landscape in the interests of the visual amenities of the area.

FOR THE INFORMATION OF THE APPLICANT

It should be noted that:

The access to the site to be formed as a footway crossing to detail DC-10.

It should be borne in mind that only contractors first approved by the Council may work within the public road boundary,

Stoves and Use of Solid Fuel

These installations can cause smoke and odour complaints and any Building and Planning Consents for the installation do not indemnify the applicant in respect of Nuisance action. In the event of nuisance action being taken there is no guarantee that remedial work will be granted building/planning permission.

Accordingly this advice can assist you to avoid future problems.

The location of the flue should take into account other properties that may be downwind.

The discharge point for the flue should be located as high as possible to allow for maximum dispersion of the flue gasses.

The flue should be terminated with a cap that encourages a high gas efflux velocity.

The flue and appliance should be checked and serviced at regular intervals to ensure that they continue to operate efficiently and cleanly.

The appliance should only burn fuel of a type and grade that is recommended by the manufacturer.

If you live in a Smoke Control Area you must only use an Exempt Appliance

<http://smokecontrol.defra.gov.uk/appliances.php?country=s> and the fuel that is Approved for use in it

<http://smokecontrol.defra.gov.uk/fuels.php?country=s> .

In wood burning stoves you should only burn dry, seasoned timber. Guidance is available on -

Treated timber, waste wood, manufactured timber and laminates etc. should not be used as fuel.

Paper and kindling can be used for lighting, but purpose made firelighters can cause fewer odour **problems**.

The applicant is reminded that this permission does not convey approval for works affecting third party rights which may exist on the land or any adjoining. The applicant is therefore advised to seek the approval of any parties having an interest in any land affected by this permission

N.B: This permission does not include any consent, approval or licence necessary for the proposed development under the building regulations or any other statutory enactment and the development should not be commenced until all consents are obtained.

Under The Control of Pollution Act 1974, the Council recommends the following hours for noisy construction-related work:
