Legal & Licensing

Dear Sir

With regard to the above application, and given the extra vehicle traffic on and off site from the main A7, that goes across our access and egress to our home at Mosspaul Bothy, we are unhappy about this application being granted. Our consideration is one of disturbance, noise, people driving up to our property by mistake, and all in all the general nuisance factor. Even if the entrance to the site is opened up, we still need unfettered private access from a shared driveway to and from our property, and for any guests or delivery vehicles with the purpose of arriving at our door. Copy of our access currently being denied us is available for viewing.

Yours faithfully

All the best and stay safe
