Amendments to On Sale and Off Sales opening hours on Sunday

We strongly object to this recommendation. To allow a large holiday camp to open it's public bar at 11am on a Sunday will undoubtedly have an adverse effect on our small rural community. Many young people visit the holiday park every year and to encourage early drinking is not something we, as locals would encourage. There is no reason for this and we only think it encourages loutish behaviour. The only reason we feel this has been put forward is revenue based. Sunday is a peaceful day and should be respected.

Addition of Shop within Main Building

We have a perfectly well stocked local shop which for years has provided the community and the visiting tourism market with all they require. We also have a local family butcher which provides meat and fresh fruit and veg. Both businesses rely on the local trade as well as the revenue brought in by the campsites. The campsite was run for many many years without a shop and for us, there seems no need to have one now.

I hope our views will be taken on board.

Kind regards,

Lesley and Jonny Scurfield
