We are also looking to improve the changing areas cosmetically as well as putting in new electrics and heating as well as any other necessary improvements needed to meet our objective of a new more modern facility. We hope that this will go a long way to securing a better facility for current and next generations of local athletes and not just football with the facility used by a number of local sports teams/clubs including athletics clubs, rugby, Callants Festival events and other social events. We will be using local qualified tradesman to deliver this project.</p> |

From a sustainable viewpoint in terms of the cosmetics and core facilities within the building some of this dates back to the early 1980s when the building was opened so bringing this up to date with modern heating, water and electrical systems will improve the efficiency of the building and in turn improve sustainability for the future.</p> |

Common Good Funds

Common Good Funds in Scotland originated in the 15th century and are the assets and income of some of the former Burghs. They can represent a substantial portfolio of land, property, some moveable items and investments and by law continue to exist for the benefit of the inhabitants of the former Burghs to which they relate. Scottish Borders Council is the owner of these Funds and each Fund has a sub-committee comprising the relevant local Councillors who make the decisions on the management of the Fund's assets and approval of any requests for funding (up to a limit of £20,000 above which full Council approval is required).

If you are successful in being awarded Common Good Funds, you will be asked to complete a monitoring & evaluation form when your project is complete or within 1 year of receiving funding. Future applications will not be considered until this has been received and the Common Good Fund Sub-Committee are satisfied with the evaluation you have provided.
