Area Partnerships

Local Area Partnerships are an opportunity for you to participate in discussion and debate about the challenges and opportunities you see affecting your area.

This consultation asks for your views about the changes that are being considered, and how each of the five Area Partnerships develop.

South of Scotland Destination Alliance

Tourism businesses across our regions have been hugely affected by the impact of COVID-19. This new survey, conducted on behalf of the South of Scotland Destination Alliance (SSDA), is to better understand our region's businesses, what support would see you join us and how we can support businesses to extend the traditional tourism season.

It's important we monitor industry feedback particularly as we look towards the easing of lockdown and business recovery in the year ahead. We are keen to support businesses by investigating in a variety of ways, encouraging visitors to stay longer and spend in the local economy as well as how we can support you as a business.

We appreciate you taking the time to fill this in, it should only take you 10 minutes and it will help us to understand how we can support you further.

This survey will close on Friday the 18th of June 2021

Community Information

Eildon Community Assistance Hub

The work of the Eildon Community Assistance Hub is continuing and weekly community partnership meetings are held every Tuesday where partners can update on services and raise issues or concerns.

Once a month the meetings are focussed on an issue that has been raised during these meetings. Issues raised so far have been:

- Mental Health and wellbeing
- Anti-Poverty strategy
- Understanding psychological Trauma
- Looking at services and venues as we move into recovery mode and mapping what is currently available.

There is a plan to have a series of themed meetings delivered by partners with the next meeting focussing on physical well-being. Referrals into the Hub remain low but Test and Protect Calls fluctuate week by week.
