

Quarterly Performance Report

August 2021

Period Covered: 1 April 2021 to 30 June 2021

“Making the Scottish Borders a safer place to live, work and visit”

Key: Green – Performance Improved, Amber – Performance Reduced < 15%, Red – Performance Reduced >15

Strategic Priority – Through effective partnership working fewer people experience antisocial behaviour

Performance Context

In quarter 1 of 2021/22 there has been an increase in group 1-5 crime of 24% when compared to quarter 1 of 2020/21. However in 2020/21 at this point the country was in lockdown due to the pandemic and recorded crimes were lower than would normally have been expected. The quarter 1 figures for 2021/22 are similar to those recorded for quarter 1 of 2019/20, pre-pandemic.

In quarter 1 of 2021/22 there has been a decrease in antisocial behaviour incidents of 33.8% when compared to quarter 1 of 2020/21. The increase in antisocial behaviour incidents in quarter 1 of 2020/21 was in large part due to the increased number of calls to Police Scotland during lockdown where breaches of government guidelines were being regularly reported. The quarter 1 figures for 2021/22 are more closely aligned to those recorded for quarter 1 of 2019/20, pre-pandemic.

In quarter 1 of 2021/22 there has been a 24.5% increase in people being monitored for antisocial behaviour. In quarter 1 of 2020/21 the country was in lockdown and therefore there was a decrease in the number of cases referred for monitoring. The number of early interventions undertaken by ASB partners has decreased by 4.4% when compared to quarter 1 of 2020/21.

Mediation referrals are 84.6% lower in quarter 1 of 2021/22 when compared to quarter 1 of 2020/21. There has also been an increase in the percentage of referrals that become mediation cases and a drop in the percentage of mediation cases that have a successful outcome. The downturn in performance in this quarter is due to the continued impact of COVID-19 lockdown restrictions and the continued involvement of the mediation officer in the Gypsy Traveller liaison role.

Key Successes

ASB working practices have been successfully adjusted to allow services to continue to function during the pandemic. There has been good on-line attendance at meetings associated with ASB.

Key Issues

As COVID-19 restrictions lift we are re-assessing our working practices to match public health and corporate guidance. Some activity involving face to face interaction is still restricted.

Mediation services have been heavily impacted by COVID-19 lockdown measures as face to face meetings, which are the preferred method of mediation, are currently not possible. Outside site visits have been undertaken in certain circumstances to better understand the problems being experienced.

The mediation officer has been committed to the Gypsy Traveller liaison role during the pandemic, in particular Victoria Park, Selkirk and a number of unauthorised encampments (From 31st July the Selkirk site is no longer operating for this purpose) A return to a more balanced distribution of mediation work is expected.

Key Activities

Staff are beginning to consider the working arrangements as restrictions ease, and integrating back into a blended working environment. This will include the interface and integration the Public Protection Unit.

Strategic Priority – Through effective partnership working fewer adults and children experience Gender Based Violence

Performance Context

The number of domestic abuse incidents reported to Police Scotland in quarter 1 of 2021/22 is 336. This is 6 incidents (1.8%) higher than 2012/21 at the same point.

The number of referrals to Domestic Abuse Advocacy Support (DAAS) service in quarter 1 of 2021/22 is 129. This is 28 incidents (27.7%) higher than 2012/21 at the same point. Repeat referrals to the DAAS service in quarter 1 of 2021/22 stand at 30.8%, only slightly above the target of 30%. The number of clients contacted within agreed timescales is significantly higher than the 80% baseline and currently stands at 93.9%.

Key Successes

DAAS, as a telephone based service, has continued to offer an unbroken service to the highest risk clients throughout the COVID-19 restrictions. DAAS have been awarded £2500 from the NatWest's Circle Fund to provide emergency safety measures e.g. phones to high risk victims of domestic abuse. This compliments the existing Victim Support Fund and expands the level of support that can be offered.

There are currently 8 requests from partner agencies for domestic abuse/risk assessment training sessions. Training for partner agencies is a key function of the DAAS service as it directly influences the number of referrals and "hard to reach" clients can be offered a more accessible service through working with the agency in a way best suited to their needs.

MARAC continues to be held every four weeks via MS Teams and this has significantly improved attendance of agencies.

CEDAR has been able to adapt the groupwork programme for mothers and their children to recover from their experiences of domestic abuse.

Key Issues

DAAS referrals reflect the revised structure introduced early in 2020, in particular referrals and consequential numbers accessing support. The referrals from Police Scotland remain constant, and there is a wider range of referrals from partner agencies.

Key Activities

A CEDAR early years domestic abuse recovery Borders pilot is being planned to support pregnant women and children under 4 who have experienced domestic abuse. Support for the pilot has been provided by the Children and Young People's Commissioning group as part of the COVID recovery programme. It is envisaged that two groups will be delivered in 2021-22.

Strategic Priority – Work in partnership to reduce injury and prevent accidents

Performance Context

Road safety remains a key focus for the team. For the team's priority areas of focus, accidents involving motorcyclists showed an increase in casualties in quarter 1 of 2021/22 when compared to quarter 1 of 2020/21, 6 additional casualties. Accidents involving older drivers have resulted in zero killed or seriously injured in quarter 1 of 2021/22, the same as 2020/21 in the same time period. Likewise younger drivers aged 17-25 involved in accidents have resulted in zero killed or seriously injured in quarter 1 of 2021/22, the same as 2020/21 in the same time period.

Key Issues

The Community Safety Officer continues to be seconded into the SBC Community Assistance Hub, due to the Covid-19 pandemic, specifically with Trace and Isolate activity with the NHS. This has been the case since March 2020.

Most primary functions with regard to road safety remain suspended. As a result there has been no further proactive activity to date and none of the driver training initiatives have been possible. It is hoped that Drivewise inputs can begin again as restrictions ease and public health advice allows.

Strategic Priority – Work in partnership to reduce injury and prevent accidents

Accidental Poisoning

Scale of the Issue

In recent years Scottish Borders area has had higher than average hospital admissions for under-fives due to accidental poisonings in the home. Household cleaning products, such as laundry capsules or tablets, represented a specific risk.

Activities Undertaken

Due to the Covid pandemic, lockdowns and home-working have meant that many families have been spending much more time at home with their young children. For this reason it was seemed appropriate that the potential dangers of accidental poisoning and many other dangers around the home were highlighted to parents of young children. The Community Safety Officer used the Council's various social media platforms to highlight the dangers by means of images, digital leaflets and information, along with relevant signposting. This same information and an additional Parent Information Pack was emailed to all Primary Schools/Nurseries and many of the regions private nurseries for further distribution via individual social media sites and digital newsletters.

Outcomes

This information and advice will have reached the majority of parents with young children across the Scottish Borders. By following the guidance and advice, it is hoped that the potential for harm to be caused around the home to young children has been reduced and awareness of dangers increased.

Strategic Priority – Work in partnership to reduce injury and prevent accidents

Water Safety & Drowning Prevention

Scale of the Issue

This year, with the majority of families staying at home or taking a holiday in Scotland, increasing numbers of children and young people may put themselves at risk of drowning in our local rivers and lochs. Highlighting the dangers of this is extremely important.

Activities Undertaken

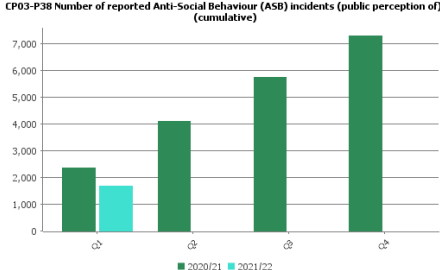

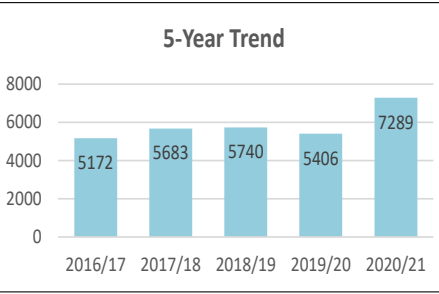

As with other safety campaigns and initiatives, the Community Safety Officer used the Council’s various social media platforms to highlight the dangers of entering our rivers, lochs and seas, in particular the issue of cold water shock. This was done by means of images and information. Signposting to other agencies where more information is available was also included. This was also emailed to all schools for further distribution via individual social media sites and digital newsletters.

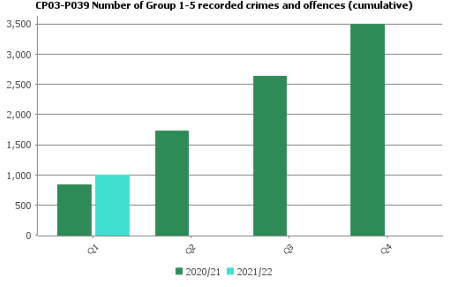

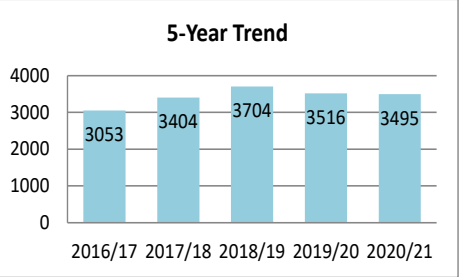

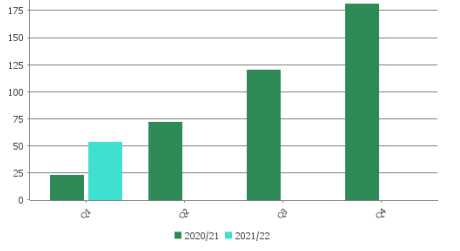

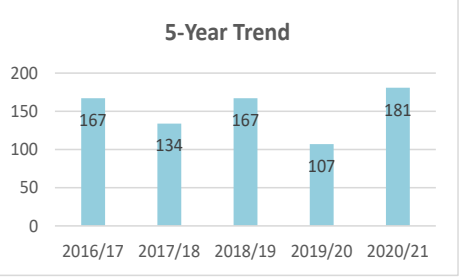

Outcomes

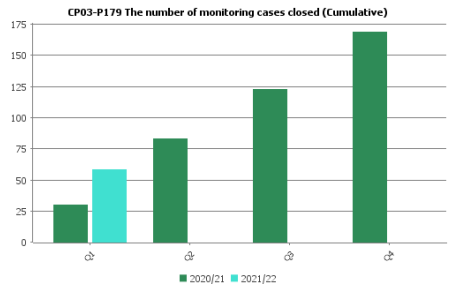

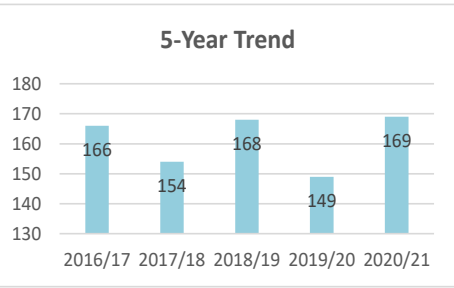

This information and advice will hopefully have reached the majority of parents and young people across the Scottish Borders. By following the guidance and advice, it is hoped that the potential for harm and drowning in our local waters will be reduced and awareness.
