GALA

It is a ridiculous idea that has zero effect. It just frustrates people. I'd love to strangle the idiot wh

MELROSE

Goodness knows whose idea this dafty concept was. Bet it was a woman!

Selkirk

Pointless and a complete waste of money and time nothing new from the scottish borders council  
It only serves to cause frustration for road users, particularly those who have to use vehicles for work  
In my opinion it was a stupid idea by someone with very little better to do.

It's a pain in the neck. Thought up by a snowflake Wally.

The Stupidest thing you've ever done

One of the worst public expenditure ever

If the analysis of speeds in Selkirk show that speed has reduced then the figures are being falsified  
agenda. If you want to make the streets safer sort out the pot holes and parking.

A total waste of money. I don't need some jobsworth interfering with speed limits in order to get  
cycling in Selkirk. I walk and cycle outside the town which is only a few minutes away so don't need  
imposed on me or my Townsfolk to make us walk. Get the 30 mph reinstated ASAP. We pay your  
don't you forget it!!!

KELSO

You've caused more traffic by reducing the speed. More traffic more pollution. Some cars struggle  
speed, thus putting out more pollution. Well done guys ! Joke

KELSO

Utter \*\*\*\*

KELSO line 3549

Just that it has been yet another hairbrained idea thought up and wasting money

KELSO

Ridiculous time to assess any road use when we are subject to lockdown. Waste of money Need:  
in "normal" times Another example of change not required. Good for sign makers and pen pusher  
advantages what so ever in this

KELSO

Was never a problem before your just annoying people with ure stupid ideas

KELSO

The 20 mph is absolutely ridiculous. My car struggles to do 20mph and feel like its going to stall. T more tailgating now that you have done this which will end up causing more accidents. Get it back There is no need for 20. Its an absolute joke!!!

KELSO

It is absolutley painful driving at 20. You lot of scumbags at the council are a bunch of overpaid i Absolutley clueless

Absolutley stupid idea. Just why? The only people moaning about 30 are the same people who are driving at 10 mph. You are driving a wedge between the council and the people they are suppose SBC is a running joke everywhere. Iv seen more potholes on the road than the ridiculous amount have put up and by god that is a challenge

KELSO

It's a load of rubbish who ever came up with it is an idiot !

PEEBLES

There is something fundamentally wrong about this wicked new speed limit. The fact it takes me get from one end of Peebles to the other, really triggers my anger problems. As I am an absolute poses a greater risk to myself and those around me i.e other road users. The speed limit should be to 30mph, in order for some of us to actually get somewhere, you bunch of clowns.

NEWCASTLETON

Its \*\*\*\*

NEWCASTLETON

It's all smoke and mirrors.... Tax payer funded experiment that is not working.

JEDBURGH

I think it was one of the dumbest ideas that SBC has ever had. Do the people that came up with the car? It has been the most annoying change. Hawick is probably worse than Jedburgh in how long it from the edge of town into the centre, again using more fuel, and producing more emissions.

JEDBURGH

None, this 20mph scheme has been a waste of time like everything other idiotic idea they come up should use there money wisely instead of pocketing it and Should focus more on fixing the dreadful scottish borders thats destroying all vehiclea on road including mine..my car is ruined and sick of i money money...People first as they pay your wages!

JEDBURGH

More people now overtaking in 20mph zones get them back to 30 and stop wasting money on stuff like this. Disgusting unorganised shambles SBC.

JEDBURGH

Yes it an absolute joke !! an absolute waste of tax payers money as per from SBC !!

ST BOSWELLS

Firstly this consultation should have been done before you wasted thousands of pounds putting i  
\*\*\*\*\* drivers off with the usual lack of transparency from this woefully inadequate council. Even  
consultation is a waste of my time as I worked for the council in a management position and have  
experience in how you just bully the public into whatever \*\*\*\*\* ideas you have, spend the money  
roads!!!

CARDRONA

I drove 90 through a school zone and one of the speed bumps screamed

I hate kids. I'm fast as \*\*\*\*\* boy

BOWDEN

I hate it, why can't you spend the resources on things that are going to benefit people like better  
conditions. Also sack the clown that came up with this ridiculous idea.

HAWICK

Is this a serious question? The 20mph is the brain child of some politically correct tree hugger. No  
wasting money on this unworkable scheme. Someone at the top table must of said how can we \*  
population of BRCs region today? ☹

Please revert back to 30mph asap.

HAWICK

Slow traffic holding up traffic and 1 of the worst ideas by this council. But when we waste millions  
giant tea towel museum nothing surprises me with SBC

HAWICK

It's a joke and should be removed instantly. The whole thing is an absolute nonsense a waste of ti  
when SBC should be spending there money on the community and not mucking around with som  
works all over the country. Get a grip SBC your morals and ideas are a joke.

HAWICK

It needs to go back to 30mph, its stupid.

Sick of government and councils dictating what we can & can't do, trying to impose your will on p  
Enough is enough, you's don't control me, I am my own person & WONT be told what to do.

Shove your government & council, time for people to wake up & stop being manipulated by morc  
\*\*\*\*\* you.

HAWICK

this has been a complete joke whoever dreamed this up should be sacked. what business would v  
in the borders when you can only drive at 20mph and what about the Enviromental impact? drivin  
gear all over the place

HAWICK

Please! Please! Bring back the 30mph as this is just a pathetic vanity project dreamed up by some  
justify their job and as an appeasement to the looney Greens who will not be happy until we  
around in horse and cart.

We live in a rural area where public transport is poor, smelly and unreliable. We don't have a ra  
likely to due to the preference for Galashiels centric thinking by SBC and other government

Having the use of our cars and the freedom to travel as and when we please is fundamental to ge  
this forgotten part of rural Scotland.

May I suggest that you put more resources into sorting our 3rd World roads and stop trying to te  
think we should be doing based on some hairy fairy ideas.

GALA

the BIGGEST waste of money ever and to think you could of spend this money on education or po  
something instead you invest in god knows how many signs all over the borders with this 20mph  
for it. Disgraceful council has no mind on how to function. Get them down ASAP and apologise to  
your stupid mistake. and also it would also been nice to see how much was spend on this stupid p  
YOUR STUPID SIGNS DOWN NOW!

GALA

All streets, at the expense of whatever lunatic councillor came up with the idea! The people of the

name for themselves?

GALA

Lack of enforcement has lead to most drivers ignoring it including many SBC vehicles, e.g. refuse v

GALA

It's a \*\*\*\*\* joke

The idiots that came up with this should all have their cars removed and banned from the road in
