

Borders Alcohol & Drugs Partnership (ADP)

UPDATE TO SCOTTISH BORDERS COMMUNITY PLANNING STRATEGIC BOARD – ADP ANNUAL REPORT 2020-2021

1 Situation

This paper updates the CPP Strategic Board on the contents of the ADP Annual Review and highlight Annual Report 2020-21.

2 Background

The ADP is required to submit an Annual Review to Scottish Government using a prescribed template (see Appendix 1). Recognising the limitations of the template the ADP has also developed a narrative 'highlight' report which provides a more detailed update on some key developments and activities during 2020-21 (see Appendix 2). The reports do not represent all work carried out across the partnership.

The 'highlight' report includes an update on progress against Ministerial Priorities; drug and alcohol services responses during COVID-19 pandemic and progress in relation to areas for improvement identified in the ADP Strategic Plan 2021-2023.

Borders ADP is a partnership of agencies and services involved with drugs and alcohol. It provides strategic direction to reduce the impact of problematic alcohol and drug use. It is chaired by the Joint Director of Public Health and the Vice Chair is Scottish Borders Council's Director – Social Work and Practice. Membership includes officers from NHS Borders, Scottish Borders Council, Police Scotland and Third Sector.

The 'highlight' Annual Report shows positive progress in many of the reporting areas and extracts are presented below. There are some areas where the ADP will seek work to improve in future work. There is a two year Delivery Plan in place which is monitored by the ADP Board.

3 Assessment

The 'highlight' Annual Report shows positive progress in many of the reporting areas and extracts are presented below:

- Drop-in clinics were postponed due to COVID-19 but all drug and alcohol services remained open throughout 2020-21 and adapted service provision to ensure all current and new clients were still able to access support (p35).
- During 2020-21, 512 individuals started treatment with 99% starting within three weeks of referral against target of 90% (p36).
- Online recovery/fellowship meetings continued throughout 2020-21 with WAWY Mutual Aid Partnerships meeting online and expanded (p36).
- In 2020-21 there were 49 first supplies of Take Home Naloxone provided across Borders. In Borders we have reached 86% of our estimated population of opiates/benzodiazepines drug users with a first time kit compared with 57% nationally (p37).
- Good progress is being made in Borders in relation to Medication Assisted
 Treatment (MAT) standards¹ 1-5 and Borders Addiction Service (BAS)
 has been awarded national funding to participate in a MAT Sub-Group
 test of change. The numbers of people starting same day prescribing
 increased. Patient choice expanded to include additional formulations of
 an existing medication (buprenorphine) Espranor and Buvidal (p38).
 Espranor is a sub-lingual formulation and Buvidal is an extended release
 injection.
- Despite schools being closed due to restrictions, CHIMES (Children
 Affected by Parental Substance Use/Family Service) was able to support
 children impacted by a family member's alcohol and/or drug use, young
 carers and parents with concerns around their drug/alcohol use. During
 2020-21 CHIMES staff members applied for and distributed over £65,000
 to families to enable practical support e.g. fuel, energy, food and
 broadband costs as well as activities, technology and equipment (p38).

2

¹ https://www.gov.scot/publications/medication-assisted-treatment-mat-standards-scotland-access-choice-support/

- During 2020-21 Borders ADP Support Team coordinated 12 online training courses with 130 participants attending (p39).
- A total of 1341 alcohol brief interventions were delivered across Primary Care, Antenatal and wider settings. This was against a target of 1312 (102%) (p40).

3.1 Progress in relation to areas for improvement identified in the ADP Strategic Plan 2021-2023

- Involvement of lived experience –Pre COVID-19 positive meetings were held with people with lived experience and family members. This panel has continued to meet online and consider how to develop lived experience involvement in ADP planning.
- Independent Advocacy The ADP contributes a small amount of funding (£5,000) towards the contract for independent advocacy in Borders. No further development has progressed in 2020-21 and the ADP is currently exploring additional capacity within the system (p41).
- Pathways for people experiencing both mental health and substance use concerns ('co-morbidity') - Development of formal pathways was not progressed during COVID-19, however, work is ongoing within Mental Health to progress this work (p41).

3.2 Preventing drug related deaths

Prevention of drug related deaths remains a priority for all ADP partners. The 2019 Annual Report was produced and presented at the Critical Services Oversight Group (CSOG). In May 21, a pilot to test a Non Fatal Overdose Pathway was established to ensure people experiencing non fatal overdose are identified and offered appropriate outreach and aftercare including referral into drug treatment service (p37).

4 Recommendation

The CPP Programme Board is recommended to: Note the reports.

Fiona Doig

Appendix One: Alcohol & Drugs Partnership Annual Review 2020/21

ALCOHOL AND DRUG PARTNERSHIPANNUAL REVIEW 2020/21 (Scottish Borders)

- I. Delivery progress
- II. Financial framework

This form is designed to capture your <u>progress during the financial year 2020/2021</u> against the <u>Rights, Respect and Recovery strategy</u> including the Drug Deaths Task Force <u>emergency response paper and the Alcohol Framework 2018</u>. We recognise that each ADP is on a journey of improvement and it is likely that further progress has been made since 2020/21. Please note that we have opted for a tick box approach for this annual review but want to emphasise that the options provided are for ease of completion and it is not expected that every ADP will have all options in place. We have also included open text questions where you can share details of progress in more detail. Please ensure all sections are fully completed. <u>You should include any additional information in each section that you feel relevant to any services affected by COVID-19.</u>

The data provided in this form will allow us to provide updates and assurance to Scottish Ministers around ADP delivery. The data will also be shared with Public Health Scotland (PHS) evaluation team to inform monitoring and evaluation of drugs policy.

We do not intend to publish the completed forms on our website but encourage ADPs to publish their own submissions as a part of their annual reports, in line with good governance and transparency. All data will be shared with PHS to inform drugs policy monitoring and evaluation, and excerpts and/or summary data from the submission may be used in published reports. It should also be noted that, the data provided will be available on request under freedom of information regulations.

In submitting this completed Annual Reviewyouare confirming that this partnership response has been signed off by your ADP, the ADP Chair and Integrated Authority Chief Officer.

The Scottish Government copy should be sent by **Wednesday 14thOctober 2021** to:<u>drugsmissiondeliveryteam@gov.scot</u>

2.2 Please provide details of any specific communications campaigns or activities carried out during 19/20 (E.g. Count 14 / specific communication with people who alcohol / drugs and/or at risk)(max 300 words).

Due to COVID-19 there were no specific communications or activities relating to Count 14. However regular communication was shared on ADP website for members of the public around support that available from drug and alcohol services as well as new facilities e.g. click and collect IEP provision. Weekly service updates were provided to Scottish Drugs Forum and Scottish Borders Council during Spring-Autumn 2020.

2.3 Please provide details on education and prevention measures/ services/ projects provided during the year 19/20 specifically around drugs and alcohol (max 300 words).

Alcohol Focus Scotland was commissioned by Borders Alcohol & Drugs Partnership to deliver the Oh Lila programme to nurseries and agencies within the local authority area, following a successful pilot session delivered in September 2019.

During February 2020, four training sessions were held for early years establishments face to face, with a further 3 sessions due to take place in May 2020. Due to COVID-19 restrictions and lockdown this training was postponed. The remainder of training was picked up in Winter/Spring 2020/21 in a virtual training environment using MS Teams. Drop in sessions via MS Teams were also offered to staff to support those who had been trained prior to lock downs and unable to practice using the materials.

Oh Lila is a child friendly resource suitable for use with children aged 3 to 6 years and aims to build resilience and protective factors in young children, helping them to develop social skills and encouraging them to communicate.

130 participants in attendance (76 Statutory sector, 30 Voluntary sector, 24 other such as housing association and foster carers). Course sdelivered included Emerging Trends, Introduction to Foetal Alcohol Syndrome, Benzodiazapines and Managing Emotion

2.6 Was the ADP represented at the Alcohol Licensing Forum?			
Yes Y			
No			
Please provide details (max 300 words) The ADP Co-ordinator represents Public Health on the Local Licensing Forum.			
The first of the state of the s			
The LLF met jointly with the Licensing Board in December 2020 and noted the report provided by the Board. The Licensing (Scotland) Act 2005 required the Board to hold hearings in public, however, the lockdown meant that this was not possible. With both businesses and licensing authorities under unprecedented disruption as a result of the Covid-19 outbreak, the Scottish Government moved swiftly and passed the Coronavirus (Scotland) Act 2020 which allowed the Board some flexibility with regard to the timescales			

and deadlines stipulated in the 2005 Act. In addition, the 2020 Act contained provisions

which gave the Board a new discretion to dispense with the requirement to hold meetings in public and to instead provide alternative means for persons to be heard by telephone, video conferencing or by written communication including by electronic means. As a consequence, the Board was able to recommence meetings by Microsoft Teams Video Conferencing and held its first meeting by this medium on 31 July 2020. This has subsequently enabled the Board to meet on a monthly basis as it normally did prior to the Covid-19 outbreak.			
2.7 Do Publ	lic Health review and advise the Board on license applications?

Preventing Drug-Related Deaths in Scotland: priority 2, 3 and 4 when answering
questions 3.1, 3.2, 3.3 and 3.4)

was there an Immediate Response Pathway for Non-fatal Overdose in
Υ

Please give details of developments (max 300 words)

Protocol between SAS, NHS Borders Addictions Service (BAS) and Emergency Dept was put in place in 2019 but was not fully implemented. In February 2021 agreement was reached for ADP Support Team to progress a pilot with information sharing with SAS, Police and NHS for all individuals experiencing a non-fatal overdose. This pilot was implemented in May 2021 with evaluation to take place in September 2021. Information is shared on a daily basis via SAS with BAS and any additional referrals received from Police to BAS. The Assertive Engagement Team (ES Team) will then make contact with individuals within 48hours of referral with appropriate harm reduction advice and support into service where appropriate.

3.2 Please provide details on the process for rapid re-engagement in alcohol and/or drug services following a period of absence, particularly for those at risk and during COVID-19. Are services fully open at normal levels / blended services on offer?(max 300 words).

In addition to the NFO pathway, the ES Team accept referrals from the core team in both BAS and We Are With You for people who have missed appointments, pharmacy pick-ups or have not engaged since original referral. Referrals will also be made by the Substance Liaison Service in the acute hospital. The ES Team will make additional attempts to engage with individuals via phone or face-to-face visits.

Drop-in clinics were postponed due to COVID-19 but all drug and alcohol services remained open in the Borders and were able to see new and current clients via telephone, online or where clinically appropriate face to face for those at high risk. Appropriate COVID-19 safety measures were in place. Where clients were asked to self-isolate or shield, staff were able to deliver medication as required including naloxone and injecting equipment provision. No staff in drug and alcohol services were transferred to work in other areas in response to COVID-19 in 2020-21.

All services are now open although, in line with COVID-19 restrictions, some activities remained online during the year e.g. recovery groups in WAWY. Drop-in clinics and First Steps harm reduction groups were suspended until post April 2021.

3.3 What treatment or screening options were in place to ad	dress	drug harms? (mark all

For people instructed to self isolate, medication was being d	elivere	ed where required.
IEP/Naloxone:		

All Community Pharmacies providing IEP had returned to normal working hours from 11.5.20. WAWY launched a click and collect service and was also open from 11 – 3pm daily for collection of IEP and Naloxone. Home deliveries were also made for IEP and naloxone to those who could not access equipment, where safe to do so.

Expansion of naloxone provision:

Following the letter from Scottish Government about the letter of comfort from Lord Advocate to expand naloxone provision into non drug services, this was implemented in Community Rehabilitation Team, Homelessness Service, CHIMES and Justice Services. All Community Pharmacies also received an invitation to sign up to a Service Level Agreement to supply take home naloxone and emergency naloxone supply.

CHIMES (CAPSM service)

This service continued to support children, young people and parents offering home visits, door- step visits and socially distanced walks. Families were supported to access emergency funds for supporting families in crisis and in need of immediate support for food, clothing, gas/ electricity and fuel for vehicles.

3.5 What treatment or screening options were in place to address alcohol harms? (mark

A new lived experience panel for individuals and family members has continued to meet and consider how to develop lived experience involvement in ADP Planning. This group is chaired by Recovery Engagement Officer within WAWY and supported by officers from Serendipity Recovery Café, Scottish Recovery Consortium and ADP Support Team. The group met on 5 occasions during 2020/21 with Terms of Reference and methods of communication agreed. Input from Scottish Recovery Consortium on A Human Rights Approach were provided. AN update from the panel is a standing item the ADP Board Meeting Agendas and we are working with the group to further develop our processes.

A person-centred approach is developed

3.14To what extent were Recovery Oriented Systems of Care (ROSC) embedded across
services within the ADP area? ROSC is centred around recognising the needs of an
individual's unique path to recovery. This places the focus on autonomy, choice and
responsibility when considering treatment.

Fully embedded	
Partially embedded	Χ
Not embedded	

Please provide details(max 300 words)

Commissioned services in Borders take a proactive approach to delivering ROSC and have continued to ensure harm reduction support, assertive engagement, family support and recovery is available during COVID-19.

Representation of lived experience continues to be explored with our lived experience group exploring ways to ensure lived experience is involved in development of ADP Strategy and Delivery plan.

Access to Buvidal has increased. Of the people receiving opiate substitute prescriptions:

- 63% receive Methadone
- 22% receive Oral Buprenorphine
- 15% receive Buvidal

Good relationships are in place via the Children and Young People's Leadership Group, Community Justice Board and individual services supported by ADP members.

ADP provide a small amount of funding (£5,000) towards the contract for independent advocacy in Borders. Development of advocacy has been outstanding for two years and had been compounded by COVID-19 as well as:

- Pausing of review of existing adult independent advocacy contract
- Children and Young People's Leadership Group unable to progress a decision relating to children's advocacy.

Until the independent advocacy contract is reviewed, ADP have agreed to support workforce development within the current service provider and enhance their capacity.

An audit of Knowledge and Training was carried out across drug and alcohol services with trauma informed training, coaching and motivational interviewing training being identified as a gap for some new staff. Training needs were built into Training directory for 2021-22.

Services currently offer psychologically-informed care at Tier 1 via Motivational Interviewing and at Tier 2 via Core CBT Skills for Relapse Prevention and Recovery Management which is well-embedded across the services.

Trauma informed training has been provided 'in house' but on limited occasions.

MAT DDTF funding:

Funding was also secured to support MAT Standard 6 from the MAT DDTF funding to ensure psycho social intervention at Tier 2 level across our services with Addiction Psychology Treatment Team (APTT) providing training and coaching across all three services. This will increase capacity within the team as well as recruit 2 further posts. Agreement has been reached that this funding will commence from September 2021 for one year. It is hoped that this will also ensure that people can access Tier 2 level intervention from BAS, WAWY or CHIMES at a much earlier stage to avoid requirement for tier 3 / 4 level intervention.

An intelligence-led approach future-proofs delivery				
3.30 Which groups or structures were in place to inform surveillance and monitoring of alcohol and drug harms or deaths? (mark all that apply)				
Alcohol harms group	N			
Alcohol death audits (work being supported by AFS) N				
Drug death review group Y				
Drug trend monitoring group	Υ			
Other Please provide details				

3.21 Please provide a summary of arrangements which were in place to carry out reviews on <u>alcohol related deaths</u> and how lessons learned are built into practice. If none, please detail why (max 300 words)

There are no formal arrangements to undertake alcohol related deaths specifically. However, any death in service (e.g. NHS or third sector) is subject to a review and lessons learned applied to that service. ADP invited AFS to discuss the published Alcohol Deaths Audit Guidance. It was not possible to progress this work in 2020-21.

3.22Please provide a summary of arrangements which were in place to carry out <u>reviews</u> on <u>drug related deaths</u> and how lessons learned are built into practice (max 300 words)

Borders Drug Death Review Group (DDRG) is in place to ensure liaison between agencies in efforts to introduce interventions aimed at reducing drug-related deaths at local level.

The DDRG is a small closed group chaired by the Chief Social Work Officer that meets on a regular basis to share and analyse relevant information on all drug related deaths including those people not in treatment services.

The aim of the group is to reduce Drug Related Deaths (DRDs) by exploring the circumstances of a death once confirmed by pathology as a DRD in the Scottish Borders; to identify learning from the reviews and promote best practice; contribute to the National Drug-related Deaths Database (NDRDD) and; implement national and local drug strategies to reduce problem drug use.

Any implications for policy or practice are then taken back through members to their organisations for progression facilitated by an Outcomes Reporting template for each review. Where an individual has been a patient of NHS Borders at time of death or within 12 months of death the Outcomes Reporting template is sent to the Healthcare Governance Lead of the appropriate Clinical Board.

Separate Management Reviews are also carried out by Borders Addictions Service where a client is in service at time of death with actions identified where appropriate. Membership of the DDRG group includes NHS, Police, Scottish Borders Council, Drug Services and ADP Support Team. An annual report is provided to Critical Services Oversight Group (Chief Officers from Police, NHS and Local Authority) to allow scrutiny of the process.

4. Getting it Right for Children, Young People and Families

T. Octaing it raight	rior officially roopic and ramines
4.1 Did you have s	pecific treatment and support services for children and young people
(under the age of 2	25) with alcohol and/or drugs problems?
Yes	
No	X
Please give details	s (E.g. type of support offered and target age groups)

Children and young people, depending on their presentation and needs, are supported through the Wellbeing for Resilience service (11-18). WAWY and BAS accept referrals from aged 16.

4.2 Did you have specific treatment and support services for children and young people (under the age of 25) affected by alcohol and/or drug problems of a parent / carer or other adult? Yes X No □
Please give details (E.g. type of support offered and target age groups)
Chimes service offers support to children and young people (up to 18 years) impacted by another's alcohol and/or drug use. An initial home visit is undertaken as part of the assessment process. Children will work with a key worker for 1:1 support, however, the nature of the work often involves additional family members and work can therefore take place in small familial groups where appropriate. As well as emotional support for resilience, children can also access group work including first aid and life-skills.
The service will work with parents (or the substance using family member) to help understanding and mitigation of the impacts on the child including emotional and behavioural development. This can also include some work to support wider treatment goals e.g. relapse preventions. The service also works with kinship carers to provide support and understanding
4.3 Does the ADP feed into/ contribute toward the integrated children's service plan? Yes X No □
Please provide details on how priorities are reflected in children's service planning e.g. collaborating with the children's partnership or the child protection committee?(max 300 words)
The ADP Strategic Lead is a member of the local Children and Young People's Leadership Group and Chair of the Commissioning Sub-group. The current Children and Young People's Integrated Services Plan for 2020-21 had five

key priorities and these are relevant to children and young people impacted by their own

or others' substance use:

- 1. Keeping children and young people safe
- 2. Promoting the health and well-being of all children and young people and reducing health inequalities
- 3. Improving the well-being and life chances for our most vulnerable children and young people
- 4. Raising attainment and achievement for all learners
- 5. Increasing participation and engagement.

4.4 Did services for children and young people, with alcohol and/or drugs problems, change in the 2020/21financial year?

The Justice Social Work Service supports the delivery of ABI. The service delivers ABI as			
part of the Induction process for individuals subject to unpaid work, in addition to			
screening when undertaking Criminal Justice Court Report interviews.			
	•		

The Justice Social Work Service commissions a Drug Treatment and Testing Order service, delivered in partnership with BAS. Use of DTTO by the Court is relatively low and is currently under review.

The service's Group Manager sits on and contributes to the Drug Death Review Group.

The Reconnect Women's programme were able to start up with small groups after COVID-19 restrictions in August 2020. The CBT based work undertaken can be accessed on either a voluntary or court mandated bases. Drug and Alcohol support services have over the year, played a part in the sharing of keep safe and other support information to women as part of the programme delivery. Reconnect also have access and can supply Take Home Naloxone as part of the extension to non drug services.

While the use of Diversion by the Procurator Fiscal Service is relatively low, opportunities to refer individuals to drug and alcohol support services are in place. This is a useful opportunity to engage and deliver Early Effective Intervention across Youth and Adult Justice, with an aim to address problematic substance use that is impacting negatively on decision making and behaviours avoiding remittance to the Court.

5.3 Has the ADP contributed toward community justice strategic plans (E.g. diversion			
from justice) in the following ways? (mark all that apply)

production of the Justice Board's strategic assessment and associated plan.			
<u>'</u>			

5.4 What pathways, protocols and arrangements were in place for individuals with alcohol and drug treatment needs at the following points in the criminal justice pathway? Please also include any support for families. (max 600 words)

a) Upon arrest

An Arrest Referral scheme is in place in Lothian and Borders area. ABI's are performed in the one Custody Suite in Borders although during 2020-21, Hawick Custody Suite was closed for some time.

b) Upon release from prison

Pathways are in place between Justice Social Work Services and BAS and other third sector services including WAWY. The arrangements seek to ensure signposting and referrals are made timeously for those being released from custody following a short term custodial sentence. BAS are in a position to enable ready access to prescriptions including same day prescribing where appropriate.

Development work is ongoing and seeks to strengthen the links between, drug and alcohol services, Justice Social Work and Scottish Prisons, with an aim to increase the take up of services by those returning to the community.

Statutory Throughcare and Community Court disposals are well supported by alcohol and drug services, including BAS and A/WAWY. Referral pathways are well established. Engagement with services is often a court or parole mandated requirement for those presenting with drug and alcohol issues. Support services regularly feed into the statutory review process and inform case management plans.

6. Equalities

Please give details of any specific services or interventions which were undertaken during 2020/21 to support the following equalities groups:

- 6.1 Older people (please note that C&YP is asked separately in section 4 above) No specific intervention
- 6.2 People with physical disabilities No specific intervention
- 6.3 People with sensory impairments No specific intervention
- 6.4 People with learning difficulties / cognitive impairments. No specific intervention
- 6.5 LGBTQ+ communities No specific intervention
- 6.6 Minority ethnic communities No specific intervention
- 6.7 Religious communities No specific intervention

6.8 Women and girls(including pregnancy and maternity)

ABI's are delivered by midwives in antenatal settings and by health visitors.

CHIMES can provide support to pregnant women.

A Foetal Alcohol Syndrome training session was delivered as part of the ADP Workforce Development Training Directory

An input was delivered to the Violence Against Woman Partnership Delivery Group on drug deaths and women.

II. FINANCIAL FRAMEWORK 2020/21

Your report should identify all sources of income (excluding Programme for Government funding) that the ADP has received, alongside the funding that you have spent to deliver the priorities set out in your local plan. It would be helpful to distinguish appropriately between your own core income and contributions from other ADP Partners. It is helpful to see the expenditure on alcohol and drug prevention, treatment & recovery support services as well as dealing with the consequences of problem alcohol and drug use in your locality. You should also highlight any underspend and proposals on future use of any such monies.

A) Total Income from all sources

Funding Source	£
(If a breakdown is not possible please show as a total)	
Scottish Government funding via NHS Board baseline allocation to Integration	£1,049,582
Authority	
2020/21 Programme for Government Funding	£657,583
Additional funding from Integration Authority	0
Funding from Local Authority	£209,047
Funding from NHS Board	£841,471
Total funding from other sources not detailed above	£25,000
Carry forwards	£121,709
Other	0
Total	£2,904,392

B) Total Expenditure from sources

	£
Prevention including educational inputs, licensing objectives, Alcohol Brief Interventions)	£25,920

Community based treatment and recovery services for adults	£1,918,039
Inpatient detox services	0
Residential rehabilitation services	£5,892
Recovery community initiatives	£258
Advocacy Services	£5,000
Services for families affected by alcohol and drug use	0
Alcohol and drug services specifically for children and young people	£252,973
Community treatment and support services specifically for people in the justice system	£66,465
Other	£196,643
Total	£2,471,190

¹It is not possible to disaggregate the spend on inpatient detox from overall mental health spend.

² Our children and families service works with adult family members e.g. kinship carers, WAWY provides 1:1 and facilitated group support to family members. It is not possible to disaggregate this from the wider overall contract.

7.1 Are all investments against the following streams agreed in partnership through ADPs with approval from IJBs? (please refer to your funding letter dated 29 th May 2020)

1. Introduction

The Alcohol & Drugs Partnership (ADP) is required to produce an annual report for Scottish Government based on a template provided. This narrative report is intended to provide an update on some key developments and activities during 2020-21. This report does not include the full extent of all work carried out.

The role of the ADP is to deliver Scotland's national alcohol and drug strategy, Rights, Respect and Recovery and provide strategic direction to reduce the level of drug and alcohol problems amongst children, young people and adults in the Borders based on local need.

Despite all the challenges that COVID-19 brought, this report highlights the successful partnership working across agencies and demonstrates how, even in times of crisis, they came together to ensure those most at need continued to receive the support they required as well as meeting the demands of the Scottish Government and new Drugs Policy Team.

During 2020-21, Scottish Parliament agreed a motion declaring Scotland's drug deaths a public health emergency and announced additional national funding to be provided to support action to prevent drug deaths.

Funding

There were four different funding streams for ADP in 2020-21.

Funding	Amount
1. Core Funding	£1,049,582
2. Programme for Government Funding	£358,278
3. Drugs Death Task Force funding (allocated Nov 2020)	£26,688
4. Additional Drug Death Prevention Funding (allocated Feb 2021)	£47,773

Appendix one provides a summary of spend in 2020-21.

Ministerial Priorities

ADPs are required to deliver work to address the following Ministerial Priorities which reflect Rights, Respect and Recovery and the Alcohol Framework.

• A recovery orientated approach which reduces harms and prevents deaths

- A whole family approach
- A public health approach to justice
- Prevention, education and early intervention
- A reduction in the affordability, availability and attractiveness of alcohol

ADPs are expected to set their own actions, improvement goals, measures and tests of changes alongside national deliverable to drive quality improvement at a local level.

The priorities are reflected in our local Strategic Plan 2020-23.

ADP Support Team

In 2020-21, the ADP Support Team included the following staff: 1.0 WTE Head of Health Improvement/Strategic Lead ADP, 1.0 WTE ADP Coordinator, 0.5 WTE Data and Performance Officer (shared post with Health Improvement) and 0.4 WTE hours Personal Assistant.

Appendix Two provides a summary of representation by the ADP Support Team on wider partnership groups.

2. <u>Drug & Alcohol Services COVID-19 Response</u>

There are three ADP commissioned drug and alcohol services in the Scottish Borders: Borders Addiction Service; We Are With You and CHIMES. These services provide a range of harm reduction, treatment and psychological interventions, as well as wider support including employment, housing and family members support. For more information on local services click <a href="https://example.com/here.com/h

Adult Drug & Alcohol Services

Drop-in clinics were postponed due to COVID-19 but all drug and alcohol services remained open throughout 2020-21 and adapted service provision to ensure all current and new clients were still able to access support. At the start of lock down all clients receiving Opiate Substitute Therapy (OST) (e.g. methadone) had the frequency of the supervision of their medication by pharmacies reviewed and reduced to support pressures within pharmacies. Supervision frequency was reviewed on an ongoing basis to minimise risk.

Services used a combination of telephone, online and face to face for those at high risk with appropriate safety measures in place. Where clients were asked to self isolate or shield, staff were able to deliver medication as required including naloxone and Injecting Equipment. Services were also able to offered face to face 'therapeutic' meetings e.g. walks, meeting in socially distanced public spaces which has been helpful for particularly isolated people when restrictions allowed. During 2020-21, 512 individuals started treatment with 99% starting within three weeks of referral against target of 90%.

Recovery Groups

Online recovery/fellowship meetings continued throughout 2020-21 with WAWY Mutual Aid Partnerships meeting online and expanded to include impact of lockdown on recovery, drug and alcohol related discussion and wider recovery activities for example quizzes and relaxation sessions.

Serendipity maintained contact with people over the phone. Online fellowship meetings were being provided by UK Smart Recovery, UK Narcotics Anonymous and UK Alcoholics Anonymous.

Staff Deployment

The number of hours for the Consultant in Addictions Psychiatry were increased.

Members of the ADP Support Team were required to support wider Public Health Team including shielding and contact tracing as well as maintaining the work of the ADP.

3. Ministerial Priorities

The following is a summary of action against each ministerial priority:

3.1 A recovery orientated approach which reduces harms and prevents deaths

- Following the letter from Scottish Government about the letter of comfort from Lord Advocate to expand naloxone provision into non drug services naloxone is also available from:
 - Mental Health Rehab
 - Justice Social Work

- Local children affected by parental substance use service
- Homeless Service
- All Community Pharmacies also received an invitation to sign up to a Service Level Agreement to supply take home naloxone and emergency naloxone supply.
- In 2020-21 there were 49 first supplies of Take Home Naloxone provided across Borders. A target had been set to supply 28 first supplies of THN in the year. Borders has reached 86% of our estimated population of opiates/benzodiazepines drug users with a first time kit.
- Scottish Drugs Forum is working alongside We Are With You Borders to implement a Peer Naloxone Supply to people at risk of, or likely to witness an overdose. This is a Drug Death Task Force funded project and an immediate response to the increasing drug related deaths in Scotland. Recruitment took place in March 2021.
- Establishment of an additional Injecting Equipment Provider.
- Development of a Non Fatal Overdose Pathway to ensure people experiencing non fatal overdose are identified and offered appropriate outreach and aftercare including referral into drug treatment service if not already engaged.
 Commenced May 2021.
- Development of non-fatal overdose leaflet (by Crew) to increase knowledge and awareness of signs of overdose and what to do in an emergency circulated widely.
- Skills building training in benzodiazepines for alcohol and drugs services staff.
- Funding was secured to ensure psychosocial intervention at Tier 2 level across our services with Addiction Psychology Treatment Team (APTT) providing training and coaching across all three services.
- Borders ADP leads a multi-agency Drug Death Review Group chaired by our Chief Social Work Officer/Vice Chair ADP. The 2019 Annual Report was produced and presented at the Critical Services Oversight Group (CSOG).

- Good progress is being made in Borders in relation to Medication Assisted
 Treatment (MAT) standards² 1-5 and BAS is participating in the MAT SubGroup test of change. The numbers of people starting same day prescribing
 increased. Patient choice expanded to include Espranor and Buvidal.
- Our local Drug Trend Monitoring Group continued to meet to share intelligence regarding emerging trends of drugs/alcohol use and related harm.
 The mailing list is used to disseminate briefings/alerts to members.
- New national Drug & Alcohol Information System (DAISy) implemented in Borders on 1st April 2021.

3.2 A whole family approach

- Despite schools being closed due to restrictions, CHIMES (Children Affected by Parental Substance Use/Family Service) was able to support children impacted by a family member's alcohol and/or drug use, young carers and parents with concerns around their drug/alcohol use. Staff moved to working from home and providing support to current caseload; parents, concerned others and children via telephone, text, email and video calls via Skype and Microsoft Teams. Door step visits were offered to families where CHIMES needed to see children to ensure safety and wellbeing.
- During 2020-21 CHIMES staff members applied for and distributed over £65,000 to families to enable practical support e.g. fuel, energy, food and broadband costs as well as activities, technology and equipment.
- WAWY and CHIMES provided one to one and group support for adult family affected by someone else's alcohol or drug use based on CRAFT (Community Reinforcement and Family training programme).
- Four training sessions were provided to early years establishments on Oh Lila
 Training. Oh Lila is a child friendly resource suitable for use with children
 aged 3 to 6 years and aims to build resilience and protective factors in young
 children, helping them to develop social skills and encouraging them to
 communicate.

37

² https://www.gov.scot/publications/medication-assisted-treatment-mat-standards-scotland-access-choice-support/

The ADP Strategic Lead is a member of the local Children and Young
 People's Leadership Group and Chair of the Commissioning Sub-group

3.3 A public health approach to justice

- The Justice Social Work Service supports the delivery of ABI. The service delivers ABI as part of the Induction process for individuals subject to unpaid work, in addition to screening when undertaking Criminal Justice Court Report interviews.
- The Justice Social Work Service commissions a Drug Treatment and Testing Order service, delivered in partnership with BAS. Use of DTTO by the Court is relatively low and is currently under review.
- The service's Group Manager sits on and contributes to the Drug Death Review Group.
- The Reconnect Women's programme was able to start up with small groups after COVID-19 restrictions lifted in August 2020. The CBT based work undertaken can be accessed on either a voluntary or court mandated bases. Drug and Alcohol support services have over the year, played a part in the sharing of keep safe and other support information to women as part of the programme delivery. Reconnect also have access and can supply Take Home Naloxone as part of the extension to non drug services.
- While the use of Diversion by the Procurator Fiscal Service is relatively low, opportunities to refer individuals to drug and alcohol support services are in place. This is a useful opportunity to engage and deliver Early Effective Intervention across Youth and Adult Justice, with an aim to address problematic substance use that is impacting negatively on decision making and behaviours avoiding remittance to the Court.

3.4 Prevention, education and early intervention

 During 2020-21 Borders ADP Support Team coordinated 12 online training courses with 130 participants in attendance (76 Statutory sector, 30 Voluntary sector, 24 other such as housing association and foster carers). Courses

- delivered included Emerging Trends, Introduction to Foetal Alcohol Syndrome, Benzodiazapines and Managing Emotion.
- Due to COVID-19 there were no specific communications or activities relating
 to Count 14. However regular communication was shared on ADP website
 for members of the public around support that is available from drug and
 alcohol services as well as new facilities e.g. click and collect injecting
 equipment provision. Weekly service updates were provided to Scottish
 Drugs Forum and Scottish Borders Council during Spring-Autumn 2020.
- Scottish Borders Council Education Department were supported in development of their Policy and Procedures for Managing Substance Use in Schools and Educational Settings

Alcohol Brief Interventions

 A total of 1341 alcohol brief interventions were delivered across Primary Care, Antenatal and wider settings. This was against a target of 1312 (102%).

3.5 A reduction in the affordability, availability and attractiveness of alcohol

- Borders ADP Support Team review all new licence and variations on behalf of Public Health.
- Occasional licences which have a child/family element and that are brought to the attention of ADP Support Team by Licensing Standards Officer

4. Progress in relation to ADP Strategic Plan 2021-2023

The ADP Strategic Plan identified the following areas for improvement:

- Lived experience involvement
- Independent Advocacy
- Pathways for people experiencing both mental health and substance use (dual diagnosis)

Below is a short update on progress:

Lived Experience involvement in development of ADP Strategy and Delivery plan.

A new lived experience panel for individuals and family members has continued to meet and consider how to develop lived experience involvement in ADP Planning. This group is chaired by Recovery Engagement Officer within WAWY and supported by officers from Serendipity Recovery Café, Scottish Recovery Consortium and ADP Support Team. The group met on 5 occasions during 2020-21 with Terms of Reference and methods of communication agreed. Input from Scottish Recovery Consortium on A Human Rights Approach were provided. An update from the panel is a standing item on the ADP Board Meeting Agendas and we are working with the group to further develop our processes.

Independent Advocacy

ADP provide a small amount of funding (£5,000) towards the contract for independent advocacy in Borders. Development of advocacy has been outstanding for two years and had been compounded by COVID-19 as well as:

- Pausing of review of existing adult independent advocacy contract
- Children and Young People's Leadership Group unable to progress a decision relating to children's advocacy.

Until the independent advocacy contract is reviewed, ADP has agreed to support workforce development within the current service provider and enhance their capacity.

Pathways for people experiencing both mental health and substance use (dual diagnosis)

There are no formal protocols in place however the Borders Addiction Service is housed within NHS Borders Mental Health directorate so there is ready opportunity for liaison. This liaison is enhanced by the fact that the Consultant in Addictions Psychiatry in BAS is also a member of the Community Mental Health Team. Likewise the BAS Service Manager also has responsibility for the Mental Health Rehabilitation Service. BAS hosts a small Addictions Psychology Therapies Team. Third sector alcohol and drugs services are able to directly refer into this team. Development of more formal pathways was not progressed during COVID-19.

Appendix One: Finance Summary

A) Total Income from all sources

Funding Source	£
(If a breakdown is not possible please show as a total)	
Scottish Government funding via NHS Board baseline allocation to Integration Authority	£1,049,582
2020/21 Programme for Government Funding	£657,583
Additional funding from Integration Authority	0
Funding from Local Authority	£209,047
Funding from NHS Board	£841,471
Total funding from other sources not detailed above	£25,000
Carry forwards	£121,709
Other	0
Total	£2,904,392

B) Total Expenditure from sources

	£
Prevention including educational inputs, licensing objectives, Alcohol Brief Interventions)	£25,920
Community based treatment and recovery services for adults	£1,918,039
Inpatient detox services	0
Residential rehabilitation services	£5,892
Recovery community initiatives	£258
Advocacy Services	£5,000
Services for families affected by alcohol and drug use	0
Alcohol and drug services specifically for children and young people	£252,973
Community treatment and support services specifically for people in the justice system	£66,465
Other	£196,643

Total	£2,471,190

¹It is not possible to disaggregate the spend on inpatient detox from overall mental health spend.

² Our children and families service works with adult family members e.g. kinship carers, WAWY provides 1:1 and facilitated group support to family members. It is not possible to disaggregate this from the wider overall contract.
