

## **Quarterly Performance Report**

**May 2022**

**Period Covered: 1 April 2021 to 31 March 2022**

**“Making the Scottish Borders a safer place to live, work and visit”**

Key: Green – Performance Improved, Amber – Performance Reduced < 15%, Red – Performance Reduced >15

## **Strategic Priority – Through effective partnership working fewer people experience antisocial behaviour**

### **Performance Context**

In 2021/22 there was an increase in group 1-5 crime of 6.7% when compared to 2020/21. However in 2020/21 the country was still recovering from pandemic restrictions and recorded crimes were lower than would normally have been expected.

In 2021/22 there was a decrease in antisocial behaviour incidents of 25.8% when compared to 2020/21. The increase in antisocial behaviour incidents in 2020/21 was in large part due to the increased number of calls to Police Scotland during lockdown where breaches of government guidelines were being regularly reported. The 2021/22 are more closely aligned to those recorded 2019/20, pre-pandemic.

In 2021/22 there was a 1.5% decrease in people being monitored for antisocial behaviour. The number of early interventions undertaken by ASB partners decreased by 7.6% when compared to 2020/21.

Mediation referrals were 69.4% lower in 2021/22 when compared to 2020/21. There was also been a drop in the percentage of mediation cases that had a successful outcome. The downturn in performance is due to the continued impact of COVID-19 lockdown restrictions and the vacancy in the mediation officer post from quarter 3 of 2021/22.

### **Key Successes**

Three of four ASB Officers have now been trained and accredited in Mediation. The fourth officer will undertake and complete training in June.

Antisocial Behaviour Officers now have Areas of Responsibility (AOR), broadly in line with Police areas and this will greatly enhance the exchange of information between all partners as well as foster good working relationships.

System development for a new database to support the work of the Antisocial Behaviour Unit is making good progress although it may take a little longer to transition than initially expected.

Multi-Agency Face-to-Face warnings are now back in place.

## **Key Issues**

All ASB Officers now take on Mediation responsibilities in addition to the core duties of an ASB officer. As one officer works part-time hours there is currently a small deficit in capacity in one Area of Responsibility (AOR) which currently needs to be taken up by another officer. The situation will need to be monitored.

## **Key Activities**

Database development in MOSAIC is continuing.

Changes to the web pages, leaflets and referral forms have now been completed.

The new ASB Officer has now completed his induction and moves onto Mediation Training in June.

## **Strategic Priority – Through effective partnership working fewer adults and children experience Gender Based Violence**

### **Performance Context**

The number of domestic abuse incidents reported to Police Scotland in 2021/22 was 1284. This is 1 incident (0.1%) higher than 2020/21.

The number of referrals to Domestic Abuse Advocacy Support (DAAS) service in 2021/22 was 462. This is 9 referrals (2%) higher than 2020/21. Repeat referrals to the DAAS service in 2021/22 stood at 33%, slightly higher than the target of 30%. The number of clients contacted within agreed timescales was significantly higher than the 80% baseline and stood at 92.8%.

### **Key Successes**

There was a successful recruitment to the 21hr advocate post, however induction is taking longer than anticipated due to the remote and agile working arrangements given the nature of the service delivered.

Leading Lights accreditation is progressing. The assessment of standards is planned for December 2022.

DAAS continues to pursue available funding to alleviate hardship, poverty and costs of safety. A successful partnership bid to the Hardship fund saw all specialist services receive over £10,000 of supermarket vouchers. The bid was submitted by the DAAS service on behalf of Border Women's Aid, Children1st and Scottish Border Rape Crisis Service. A further application to the Nat West Circle fund has been submitted for £5,000 to support clients with specific activities, which will support their recovery that ordinarily would be out with their budget.

Work is underway to implement a Suicide Protocol into the DAAS as a result of a significant increases in the number of calls from clients expressing suicidal ideation. This is welcomed by staff due to the impact of managing such calls. The Protocol has been developed with NHS Borders Suicide Prevention lead. This may be shared nationally to other IDAA services.

DAAS Service Exit Interviews for 2021/22 show continued positive outcomes for clients after working with DAAS in relation to safety, confidence, impact on children and accessing support.

Scottish Government have announced an extension of the Delivering Equally Safe funding stream for a further 2 years, this will enable the mothers and children groupwork programme, CEDAR, to continue to September 2025.

## **Key Issues**

Court processes, delays and cases disposals are having a significant impact on the time taken to support clients and help them understand the court decisions. This seems to be the picture nationally and DAAS are linked in with other court advocacy services to ensure we take a collective response to raising concerns.

There has been a significant increase in MARAC referrals and work is underway to ascertain the best model to ensure we maintain a focused and risk management model to addressing the increase.

## **Key Activities**

DAAS continues to deliver the required support in the given timeframes but staff are all still working from home.

Redevelopment of the safety planning template and recorded consent forms on the DAAS database is underway as result of an in-depth review of safety planning and to bring Consent into line with GDPR.

## **Strategic Priority – Work in partnership to reduce injury and prevent accidents**

### **Performance Context**

For the priority areas of focus, accidents involving motorcyclists showed an increase in casualties in 2021/22 when compared to 2020/21, with 16 additional casualties reported. Accidents involving older drivers have resulted in 3 killed or seriously injured in 2021/22, lower than 2020/21. Younger drivers aged 17-25 involved in accidents have resulted in 5 killed or seriously injured in 2021/22, higher than 2020/21.

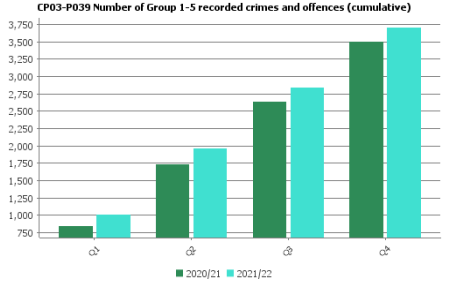

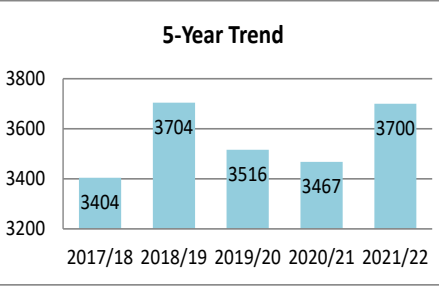

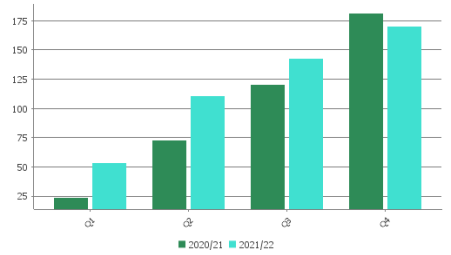

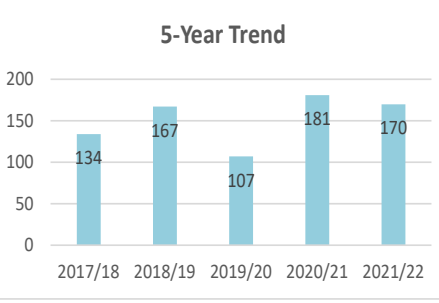

### **Key Issues**

Following an appraisal of the role of Community Safety Officer and changing business needs, adjustment has been made to the function within the post. The Community Safety/Policy Officer post has now been filled and a review of the reporting requirement into Scrutiny for this post is currently being conducted.

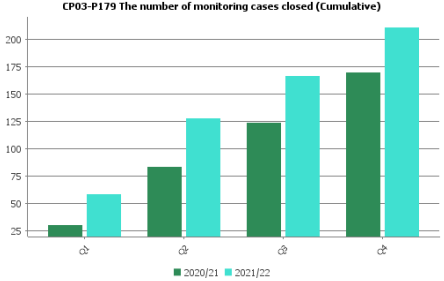

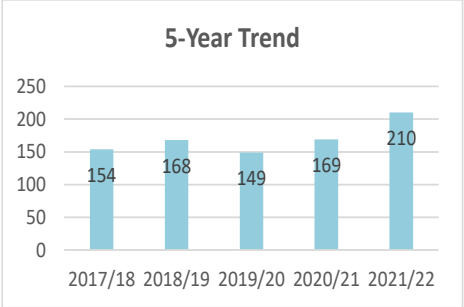

**Safer Communities Team**
