**REASON FOR DECISION**

Subject to compliance with the schedule of conditions, the development will accord with the relevant provisions of the Local Development Plan 2016 and there are no material considerations that would justify a departure from these provisions.

**SCHEDULE OF CONDITIONS**

- 1 The development hereby permitted shall not be carried out otherwise than in complete accordance with the plans and specifications approved by the planning authority.  
Reason: To ensure that the development is carried out in accordance with the approved details.
- 2 No development shall commence until a sample of the materials to be used on the walls and roof of the proposed extensions hereby approved has been submitted to and approved in writing by the planning authority. Thereafter, unless otherwise agreed in writing with the planning authority, only the approved material shall be used.  
Reason: To ensure a satisfactory form of development, which contributes appropriately to its setting.
- 3 No development shall commence until a construction method statement (CMS) is submitted to and approved in writing by the planning authority. Once approved, all works to be carried out in strict accordance with approved CMS. The CMS to cover items such as, but not limited to, traffic management, location of site compound and storage areas, site access, temporary signage etc.  
Reason: To ensure the development is carried out in acceptable manner in the interest of road safety.
- 4 The rooflights shall be fitted with black or dark grey frame and shall be installed flush with the roof slope, unless otherwise agreed in writing with the planning authority.  
Reason: To ensure a satisfactory form of development, which contributes appropriately to its setting.
- 5 The finish of the flue shall be matt finished dark grey or black.  
Reason: To ensure a satisfactory form of development, which contributes appropriately to its setting.

**FOR THE INFORMATION OF THE APPLICANT**

It should be noted that:

- 1 Prior to submission of any CMS, contact should be made with SBC representatives (Roads Planning Service and Traffic and Road Safety) to discuss the road safety aspects of this proposal.
- 2 Wood burning stoves  
If a stove is to be installed with an output of more than 45kw, contact should be made with the council's Environmental Health Service to provide further information in order that a screening assessment can be carried out. Stove installations can cause smoke and odour complaints and planning permission for the flue's installation does not indemnify the applicant in respect of statutory nuisance action. In the event of nuisance action being taken there is no guarantee that remedial work will be granted planning permission, including for changes to the height and position of the flue. The flue should be terminated with a cap that encourages a high gas efflux velocity. The flue and appliance should be checked and serviced at regular intervals to ensure that they continue to operate efficiently and cleanly. The appliance should burn only fuel of a type and grade that is recommended by the manufacturer.

N.B: This permission does not include any consent, approval or licence necessary for the proposed development under the building regulations or any other statutory enactment and the development should not be commenced until all consents are obtained.

Under The Control of Pollution Act 1974, the Council recommends the following hours for noisy construction-related work:

Monday-Friday 0700-1900

Saturday 0800-1300

Sunday and Public Holidays - no permitted work (except by prior agreement with the Council)

Contractors will be expected to adhere to the measures contained in BS 5228:2009 "Code of Practice for Noise and Vibration Control on Construction and Open Sites".

For more information or to make a request to carry out works outside the above hours, please contact an Environmental Health Officer at the Council.

**Notice of Initiation of Development**

Section 27 of the Town and Country Planning (Scotland) Act 1997 (as amended) requires that any person who has been granted planning permission (including planning permission in principle) and intends to start development must, once they have decided the date they will start work on the development, inform the planning authority of that date as soon as is practicable. A form is available on the Council's website for this purpose.

**Notice of Completion of Development**

Section 27B of the Town and Country Planning (Scotland) Act 1997 (as amended) requires that any person who completes a development for which planning permission (including planning permission in principle) has been given must, as soon as practicable after doing so, give notice of completion to the planning authority.

When planning permission is granted for phased development then under section 27B(2) the permission is to be granted subject to a condition that as soon as practicable after each phase, other than the last, is completed, the person carrying out the development is to give notice of that completion to the planning authority.

If the applicant is aggrieved by the decision of the Planning Authority to refuse planning permission for or approval required by a condition in respect of the proposed development, or to grant permission or approval subject to conditions, the applicant may require the planning authority to review the case under Section 43A of the Town and Country Planning (Scotland) Act 1997 (as amended) within three months from the date of this notice.

The notice of review must be submitted on the standard form and addressed to the Clerk of The Local Review Body, Democratic Services, Scottish Borders Council, Council Headquarters, Newtown St Boswells. TD6 0SA or sent by email to [localreview@scotborders.gov.uk](mailto:localreview@scotborders.gov.uk). The standard form and guidance notes can be found online at [Appeal a Planning Decision](#). Appeals to the Local Review Body can also be made via the Scottish Government Planning and Environmental Appeals Division by clicking on the following link [PEAD](#)

If permission to develop land is refused or granted subject to conditions, whether by the Planning Authority or by the Scottish Ministers, and the owner of the land claims that the land has become incapable of reasonably beneficial use in its existing state and cannot be rendered capable of reasonably beneficial use by the carrying out of any development which has been or would be permitted, the owner may serve on the Planning Authority a purchase notice requiring the purchase of his interest in the land in accordance with the provisions of Part 5 of the Town and Country Planning (Scotland) Act 1997 (as amended).
