Subject: Fwd: Freedom of Information request -Addition to the comments of Fiona Jewkes 22/00008/RREF

CAUTION: External Email

Dear Sir /Madam.  
I apologise for any inconvenience. I requested a noise level at Old Cambus West Mains Tree business (TD Trees and Land Services) under the Freedom of Information Act and have only just received this reply from TD Tree and Land Services. I am sorry it was separated from the main body of my document but I was concerned I might miss the closing date for the main part of the comments if I had waited to include it.

Please could Mr Dixon's reply (below) be read in conjunction with the parts of my main document that are concerned with noise from their company.

Apologies again,  
Yours sincerely,

Fiona Jewkes

Dear Dr Jewkes,

We have several pieces of equipment that make noise, some are chippers some are firewood processing machinery. We monitor noise levels to protect our staff and keep our machinery maintained according to the manufacturers guidelines. We only process timber at West Mains in a few months of the year and we hope that this does not cause too much disturbance.

The noise levels of our machinery are as follows:

Heizohack crane fed biomass chipper,  
115dB  
Bandit disc chipper,  
117dB  
Posch 300 processor  
108dB  
Chainsaws 110-115dB

I hope this information satisfies your query.

Yours sincerely

Tom Dixon

Dear Mr Dixon,

Re Noise level at site of TD Trees at Old Cambus West Mains.

Please provide a decibel level on all the machinery that you use to process wood at this site.

Thank you

Yours sincerely,

Fiona Jewkes
