### Summary of Progress for Newcastleton

There are approximately 140 residential properties and 10 non residential properties at risk of flooding. The Annual Average Damages are approximately £160,000. Further information can be found in LFRMP under PVA 14/03. Page 43 of the SLPD Local Flood Risk Management Plan (<http://www.dumgal.gov.uk/flooding/>)

Key Progress in reducing impacts of flooding since publication:

- Newcastleton Flood Study was completed in 2019, with a flood protection scheme proposed for FRM Cycle 2.
- Newcastleton Surface Water Management Plan was completed in 2019.
- Newcastleton is now an active Resilient Communities Group.

### Overview of actions to manage flooding in Newcastleton

PVA	Flood protection scheme / works	Natural flood management works	New flood warning	Community flood action groups	Property level protection scheme	Site protection plans	Flood protection study	Natural flood management study	Maintain flood warning*	Awareness raising	Surface water plan / study	Emergency plans / response	Maintain flood protection scheme*	Strategic mapping and modelling	Flood forecasting	Self help	Maintenance	Planning policies

Summary of progress of actions to manage flood risk in Newcastleton (PVA 14/03)

Action	Status	Description	Delivery Lead	FINAL REPORT	Revised dates and planned actions to complete / address delay
Community Flood Action Groups	<b>G</b>	Scottish Borders Council is currently in discussion with Newcastleton and District Community Council with a view to forming a Resilient Communities Group which would take action in the event of a flood.	Community	SBC has facilitated the setup of a resilient communities group in Newcastleton.	SBC has continued to work closely with Newcastleton resilient communities group, community council and community trust to raise awareness of flood risk. A flood group has also been set up and the Council is working with them to help manage flood risk in the village going forward.
Flood Protection Study	<b>G</b>	A study is recommended to develop upon previous studies, incorporating the most up to date information. The study will further investigate the feasibility of a flood protection scheme in Newcastleton, focusing on the benefit of direct flood defences on the Liddel Water and further property level protection scheme. This study should also consider natural flood management action to reduce runoff into the town. Other actions may also be considered to select the most sustainable combination of actions.	SBC	Flood Study is complete with study findings proposing a flood protection scheme for FRM Cycle 2.	Complete
Maintain Flood Warning	<b>G</b>	Continue to maintain the Newcastleton Village flood warning area which is part of the Newcastleton river flood warning scheme.	SEPA	SEPA has continued to operate the flood warning service.	SEPA has continued to operate the flood warning service.

Action	Status	Description	Delivery Lead	FINAL REPORT	Revised dates and planned actions to complete / address delay
		When flood events occur in an area with a flood warning service, SEPA will seek to verify and validate the warning service. SEPA will use feedback and post-event data to ensure that our flood warning service is timely and accurate.			
Surface Water Plan / Study	<b>G</b>	The area must be covered by a surface water management plan or plans that set objectives for the management of surface water flood risk and identify the most sustainable actions to achieve the objectives.	SBC	Newcastleton Surface Water Management Plan was completed in 2019, finding will be used to help inform any future flood protection scheme.	Complete
Strategic Mapping and Modelling	<b>G</b>	Scottish Water will carry out an assessment of flood risk within the highest risk sewer catchments to improve knowledge and understanding of surface water flood risk.	Scottish Water	The Scottish Water assessment of flood risk within the sewer catchment has been completed and has been shared with the Local Authority.	Complete
Awareness Raising	<b>G</b>	<i>For details see "Progress with LPD-wide Actions".</i>
