2 RECOMMENDATIONS

2.1 It is recommended that the Pension Fund Committee:-

- (a) Notes the actual expenditure to 30 September 2022.**
- (b) Notes the projected out turn position to 31 March 2023.**

3 BACKGROUND

- 3.1 The Local Government Pension Scheme (Scotland) Regulation 2014 requires Administering Authorities to ensure strong governance arrangements and sets out the standards they are to be measured against. The Fund is required to report on an annual basis within its Annual Report if it has met these standards. To demonstrate full compliance requires the setting and monitoring of a budget for the Fund.
- 3.2 A budget was approved at the Joint Pension Fund Committee and Pension Fund Board meeting on 17 March 2022 for 2022/23. The approved budget follows the Local Government Pension Scheme management costs guidance issued by CIPFA into the following 3 categories.

Category	Costs included
Investment Management	All expenses incurred in relation to management of pension fund assets. Including costs invoiced direct and fees deducted from fund assets. Custody and performance fees are also included.
Administration	Costs incurred in administration of the fund including staff, IT costs and associated overheads and benefits consultants.
Oversight and governance	Costs incurred in the selection & appointment of managers, audit fees, investment advisory services, tax advisory, accounting services, banking service and support to the pensions committee and board.

4 MONITORING TO 30 SEPTEMBER 2022

- 4.1 The table below shows the expenditure to 30 September 2022, projected outturn to 31 March 2023 and current approved budget for 2022/23.

	Expenditure to 30 September 22 £000's	Projected to 31 March 23 £000's	2022/23 Budget £000's	2022/23 Variance £000's
Investment Management	1,046	6,564	6,564	0
Administration	114	497	497	0
Oversight & Governance	26	339	339	0
Total	1,186	7,400	7,400	0

- 4.2 Investment Management fees are charged on a quarterly basis in arrears based on the value of assets held on a quarterly basis. The second quarter's investment management fees are not therefore included in the expenditure to 30 September 2022.

5 CASHFLOW MONITORING

- 5.1 A key objective of the Fund is to ensure the funds are in place to pay the members' benefits. The Fund has been a mature fund since 2013/14 with the number of pensioners and their dependants exceeding contributing members. This in turn has resulted in the monthly cash out goings for pension benefits and expenses being higher than the contributions collected from active members.
- 5.2 To ensure the Fund continues to meet its primary objective the investment strategy approved by Committee incorporates an element of income generating assets to supplement member and employer contributions. These income generation assets are expected to enable the cash flow requirements of the Fund to be fully met without the requirement to disinvest from assets.
- 5.3 The graph below reflects cash expenditure for pension benefits, investment manager fees and operational costs of the Fund on a quarterly basis from July 2021 to September 2022. Income shown is the contributions received from employers and employee and investment income received as cash. The figures excluded any principle returned or invested.

- 5.4 The graph shows some quarters with surplus income and others with deficits. However over the 15 month period shown the total cash received

was £47.6m, cash expenditure was £38.6m, resulting in a cash surplus of £9.0m over the period. This surplus has been utilised in part to fund draw down notices from the Infrastructure managers.
