Review procedure

The Local Review Body will decide on the procedure to be used to determine your review and may at any time during the review process require that further information or representations be made to enable them to determine the review. Further information may be required by one or a combination of procedures, such as: written submissions; the holding of one or more hearing sessions; and/or inspecting the land which is the subject of the review case.

Please indicate what procedure (or combination of procedures) you think is most appropriate for the handling of your review. You may tick more than one box if you wish the review to be conducted by a combination of procedures.

- 1. Further written submissions
- 2. One or more hearing sessions
- 3. Site inspection
- 4. Assessment of review documents only, with no further procedure

If you have marked box 1 or 2, please explain here which of the matters (as set out in your statement below) you believe ought to be subject of that procedure, and why you consider further submissions or a hearing are necessary:

To explain our rationale for needing pipe installation, and to put it into context with respect to the conservation area

Site inspection

In the event that the Local Review Body decides to inspect the review site, in your opinion:

If there are reasons why you think the Local Review Body would be unable to undertake an unaccompanied site inspection, please explain here: N/A

Statement

You must state, in full, why you are seeking a review of your application. Your statement must set out all matters you consider require to be taken into account in determining your review. **Note:** you may not have a further opportunity to add to your statement of review at a later date. It is therefore essential that you submit with your notice of review, all necessary information and evidence that you rely on and wish the Local Review Body to consider as part of your review.

If the Local Review Body issues a notice requesting further information from any other person or body, you will have a period of 14 days in which to comment on any additional matter which has been raised by that person or body.

State here the reasons for your notice of review and all matters you wish to raise. If necessary, this can be continued or provided in full in a separate document. You may also submit additional documentation with this form.

We are not getting any younger and we feel we need to install a bathroom upstairs in our property, where we have lived for over 30 years. Inability to do this will impact on our long term plans to be able to stay here. Given the recent history of house sales in Swinton there is a significant chance that it would be sold as a holiday home, of which there are several already in Swinton. I am sure I do not need to point out to the planning authority that an abundance of holiday homes does nothing for the social cohesion of a small vilage like Swinton.

In relation to the proposed external pipe, we intend to use cast iron goods, and this will be painted to match the existing downpipes. In any case the pipe would only be visible for around 1-1.5 metres as the rest is either covered by climbing plants or will be buried underground. This is possibly best seen in a site visit.

Having looked around the rest of the conservation area in Swinton there are many examples of such external soil vent pipes so I do not think this is setting a precedent. I note that one of the objections stated that our house was in a prominent site on the western approach to the village- I disagree with this as our house is the third house down Duns Road, and is therefore not as prominent as the objector would suggest.

Have you raised any matters which were not before the appointed officer at the time the determination on your application was made?

Yes No

If yes, you should explain in the box below, why you are raising new material, why it was not raised with the appointed officer before your application was determined and why you consider it should now be considered in your review.

I am being more specific on the type of material being used, i.e. cast iron and also explaining our rationale for it.

List of documents and evidence

Please provide a list of all supporting documents, materials and evidence which you wish to submit with your notice of review and intend to rely on in support of your review. Note: there will be no opportunity to submit further documents to accompany this notice of review.

Note: the planning authority will make a copy of the notice of review, the review documents and any notice of the procedure of the review available for inspection at an office of the planning authority until such time as the review is determined. It may also be available on the planning authority website.

Checklist

Please mark the appropriate boxes to confirm you have provided all supporting documents and evidence relevant to your review:

- Full completion of all parts of this form
- Statement of your reasons for requiring a review
- All documents, materials and evidence which you intend to rely on (e.g. plans and drawings or other documents) which are now the subject of this review.

Note: where the review relates to a further application e.g. renewal of planning permission or modification, variation or removal of a planning condition or where it relates to an application for approval of matters specified in conditions, it is advisable to provide the application reference number, approved plans and decision notice from that earlier consent.

Declaration

I the applicant/agent [delete as appropriate] hereby serve notice on the planning authority to review the application as set out on this form and in the supporting documents.

Signed Date
