Dear Ross,

Thank you for your email and I apologise for the delay in the processing of your application. I've now had the opportunity to view the application case file and I am not sure whether I've received any feedback in response to the comments provided by our Roads and Flood Risk Officers. I've attached their consultations for your information and I've also included the developer contributions letter requiring details for the Waverley Line Re-instatement contribution.

In terms of the design and looking at the adjacent properties and to make the proposals acceptable I would be looking for a more traditional window fenestration on the front elevation with a change in the materials to render/stone with a natural slate roof.

Happy to discuss these matters and I look forward to hear from you.

Kind regards,

Brett

South-West of Castleside  
Cottage, Ashkirk, Selkirk

CAUTION: External Email

Hi Brett,

I refer to the above application and have noted that the target date has just passed. I just wondered if you had been able to complete your assessment of the proposals as yet?

--

Kind Regards

Ross Martin
