4 CAPITAL INVESTMENT STRATEGY

- 4.1 As per the CIPFA Prudential Code 2017 the purpose of a Capital Investment Strategy is:

*“In order to demonstrate that the authority takes capital expenditure and investment decisions in line with service objectives and properly takes account of stewardship, value for money, prudence, sustainability and affordability, authorities should have in place a capital strategy that sets out the **long-term context in which capital expenditure and investment decisions are made** and gives **due consideration to both risk and reward** and **impact on the achievement of priority outcomes.**”*

*“While indicators for sustainability are required to be set over a minimum three year rolling period, indicators should be set in line with a capital strategy and asset management plan that is **sustainable over the longer term.**”*

5 IMPLICATIONS

5.1 Financial

There are no direct financial implications resulting from this report.

5.2 Risk and Mitigations

There are wide ranging risks associated with the projects and programmes described in the Capital Investment Strategy. These are managed by the relevant department and/or project team in line with the Corporate Risk Management Policy and Framework.

As described in detail within the Strategy, oversight is provided by having appropriate governance in place, which includes regular reporting to ensure adequate scrutiny is provided throughout the lifetime of each project.

The Council's Treasury Management Strategy ensures that the Council operates within the prudent and affordable limits of the CIPFA Code (2017), whilst the CIPFA Prudential Code gives further assurance that the Council invests within the limitations of legislative controls. These controls reduce the risks associated with the Capital Investment Strategy and are audited as part of regular internal audit programmes of work, providing further assurance.

Contingency is provided by the Emergency and Unplanned Schemes budget. It should be noted that this contingency is sufficient to cover a limited proportion of risks should they arise.
