Planning Application	21/01618/FUL Case Officer: Brett Taylor			ett Taylor	
Reference					
Applicant	Mr P J Lewis				
Agent	RM Architecture Ltd				
Proposed	Erection of dwellinghouse				
Development					
Site Location	Land South West Of Castleside Cottage Selkirk Scottish Borders				
The following observations represent the comments of the consultee on the submitted application as they relate to the area of expertise of that consultee. A decision on the application can only be made after consideration of all relevant information, consultations and material considerations.					
Background and Site description					
Key Issues (Bullet points)	AccessParking				
Assessment	I am unable to support the proposal as it stands due to concerns over the access and visibility. In order to address my concerns I will require an amended plan showing visibility splays of 2.4 by 120 metres in both directions at the junction onto the public road. The parking for the proposed dwelling should be within the bounds of the plot and not segregated by the farm track, in order to minimise conflict between users. My preference would be for an independent access to the north of the proposed property which would separate it from the farm track and provide better visibility. A construction specification for the new access and parking area will also be required. Until the above concerns have been addressed, I am unable to support this application.
