Comment Reasons:

- Land affected

Comment:As owners of the adjoining farm land we are concerned about this planning application. The plan shows the location of an Agricultural store which is in fact our poultry manure store. This is somewhat misleading when considering this application for residential properties. This shed was built in 2010 for this purpose. we prefer to keep this manure dry to reduce the impact of any potential pollution. An application was made to extend this shed, it has been dug out and hardcore laid in preparation for this work to proceed.

Our concern is that the development of residential properties adjacent to the manure store would be inappropriate. We would not wish there to be any conflicting issues arising from this development and would like the use of this shed to be noted in your consideration.
