Statement

You must state, in full, why you are seeking a review of your application. Your statement must set out all matters you consider require to be taken into account in determining your review. Note: you may not have a further opportunity to add to your statement of review at a later date. It is therefore essential that you submit with your notice of review, all necessary information and evidence that you rely on and wish the Local Review Body to consider as part of your review.

If the Local Review Body issues a notice requesting further information from any other person or body, you will have a period of 14 days in which to comment on any additional matter which has been raised by that person or body.

State here the reasons for your notice of review and all matters you wish to raise. If necessary, this can be continued or provided in full in a separate document. You may also submit additional documentation with this form.

The proposal is to increase the ridge height of the roof to allow the attic space to be used for accomodation, mainly a bedroom with ensuite.

The property is close to the river and since moving in the clients have had to deal with a number of floods that have on 2 occasions caused significant damage (December 2015 & December 2022). Both times the client had to move out of the premise whilst repairs were carried out. They are currently staying away from the house whilst work is carried out to make the house habitable once again.

Currently there is flood prevention measures in place within the property (solum pump) and the surrounding area (flood gates) but these do not provide enough to stop any damage occurring. The proposals therefor not only are to gain the much needed additional space for the owners but most significantly provide a safe place to retreat; allow for storage of contents at high ground; and sleep if further floods occur.

The roof rebuild will be very sympathetic to the original structure. We propose to use the same tiles, ridge tiles and match the eaves detailing so the roof will largely look the same other than the raised ridge height. The new dormer will then sit below the ridge and be hidden from the front.

The client is keen to keep the aesthetics of the building intact however given the number of floods that have happened in recent years they have to take measures to reduce any further damage caused by the floods, and given the site and the limitation of the house the proposed plans would be the only option available to them.

Have you raised any matters which were not before the appointed officer at the time the determination on your application was made?

Yes No

If yes, you should explain in the box below, why you are raising new material, why it was not raised with the appointed officer before your application was determined and why you consider it should now be considered in your review.
