Please provide a brief summary of how the parents think the school is improving	<p>There have been a series of improvements and continuing activities which are really benefiting students and families alike. The continuation of breakfast club on Tuesdays and Wednesdays. The addition of Homework Club on Thursdays. Gardening Club continuing on Tuesdays. There has been a noticeable increase in outdoor learning and play which the students are really enjoying. The digital learning also has improved greatly as everyone has become more familiar with the Apps and how to use them - SumDog in particular, has made maths very enjoyable for everyone. Communication between the school and parents continues to be exemplary. We are also informed of events and activities within the wider community and invited into the school on several occasions.</p> <p>We continue to be very happy with the school.</p>
Any further comments	<p>The school recently held a 'Share Our Learning' event for families to come along and see what their children have been learning and doing so far. It was extremely evident how happy and engaged all of the students were. There was a high level of pride in their work as they showed us. The whole culture at the school is very positive.</p>
