Reason: To ensure that the use remains compatible within the site.

In the event that the existing front door is to be replaced a scheme of details for the reuse of this door shall be agreed with the Planning Authority prior to its removal. Once approved the development shall be carried out in strict accordance with the approved details.
Reason: Further information is required to ensure a satisfactory form of development which respects the character and appearance of the Conservation Area.
- 3 Prior to installation the material finish of the external boiler flue and extract fan grille shall be submitted to and agreed in writing with the Planning Authority and thereafter the development shall be completed in strict accordance with the agreed details.
Reason: Further information is required to ensure a satisfactory form of development which respects the character and appearance of the Conservation Area.
- 4 No development shall commence until a scheme of details setting out arrangements and locations for domestic waste and recycling storage and collection are submitted to and approved in writing by the planning authority. Thereafter the development is to be completed in accordance with the approved details, unless otherwise agreed in writing with the Planning Authority.
Reason: To ensure suitable provisions are made for the provision and storage of domestic waste and recycling within the site.
