**Schedule of Plans and Drawings Approved:**

<b>Plan Ref</b>	<b>Plan Type</b>	<b>Plan Status</b>
1 of 4	Location Plan	Approved
2 of 4	Proposed Block Plan	Approved
3 of 4 [9 sheets]	Other	Approved
4 of 4	Photos	Approved

**REASON FOR DECISION**

Subject to compliance with the schedule of conditions, the development will accord with the relevant provisions of the Local Development Plan 2016 and there are no material considerations that would justify a departure from these provisions.

**SCHEDULE OF CONDITIONS**

- 1 The development hereby permitted shall not be carried out otherwise than in complete accordance with the plans and specifications approved by the planning authority.  
Reason: To ensure a satisfactory form of development which contributes appropriately to its setting.
- 2 No development shall commence until a drawing showing the exact site layout, number of units and the colour thereof, specified by means of a RAL or BS code, have been submitted to and approved in writing by the planning authority. Once approved, the development shall not be carried out otherwise in complete accordance with the approved details, unless otherwise agreed in writing with the planning authority.  
Reason: To ensure a satisfactory form of development which contributes appropriately to its setting.
- 3 No development shall commence until details of the methods used to anchor the units to the ground have been submitted to and approved in writing by the planning authority. Once approved, the development shall not be carried out otherwise in complete accordance with the approved details, unless otherwise agreed in writing with the planning authority.  
Reason: As the site is likely to be subject to flooding, the units must be secured to the ground in order to prevent them being washed away in a flood, thereby potentially causing damage downstream and blocking culverts and bridges.

**FOR THE INFORMATION OF THE APPLICANT**

It should be noted that:

- 1 As the storage containers would be located within the flood extent of the Eddleston Water, their use is entirely at the site operator's own commercial risk.
- 2 You are advised to sign up to FLOODLINE at [www.sepa.org.uk](http://www.sepa.org.uk) or by telephone on 0845 988 1188 in order to receive flood warnings from SEPA. It would also be advisable to develop an evacuation plan for the site to cover times of flood warning.

N.B: This permission does not include any consent, approval or licence necessary for the proposed development under the building regulations or any other statutory enactment and the development should not be commenced until all consents are obtained.

Under The Control of Pollution Act 1974, the Council recommends the following hours for noisy construction-related work:

Monday-Friday 0700-1900

Saturday 0800-1300

Sunday and Public Holidays - no permitted work (except by prior agreement with the Council)

Contractors will be expected to adhere to the measures contained in BS 5228:2009 "Code of Practice for Noise and Vibration Control on Construction and Open Sites".

For more information or to make a request to carry out works outside the above hours, please contact an Environmental Health Officer at the Council.

### **Notice of Initiation of Development**

Section 27 of the Town and Country Planning (Scotland) Act 1997 (as amended) requires that any person who has been granted planning permission (including planning permission in principle) and intends to start development must, once they have decided the date they will start work on the development, inform the planning authority of that date as soon as is practicable. A form is available on the Council's website for this purpose.

When planning permission is granted for phased development then under section 27B(2) the permission is to be granted subject to a condition that as soon as practicable after each phase, other than the last, is completed, the person carrying out the development is to give notice of that completion to the planning authority.
