Dear Sir,

Thank you for your information of

planning application

We have no objections.

However could I remind you that when our site was developed in 1990, the builder, Templetons of Galashiels first submitted plans for 3 dwellings. They were told that this would only be granted if they made up Lye Road with footpath and street lighting, but if only 2 dwellings were built these conditions would not apply, so only 2 bungalows were built.

As this planning application is for a third house, do these conditions still hold force? If so that would be very welcome to us.

Yours faithfully

[REDACTED]

Dear Sir/Madam,

Paul Burns has requested that I send a letter to you regarding the above Plans. I received notification as did other neighbours.

I have deliberately not acted on these as I have no objections whatsoever to his Plans.

This morning Paul has shown

use the detailed layout. I reiterate that I am more than happy to go along with them. I refer especially to the library window as I believe there might be an issue regarding this.

I have asked Paul to deliver this letter to you.

Yours faithfully,
